Handmade in Belgium

#09/2021

Architectural lighting **Trizo21** moulds light into different shapes to bring an ambiance, concept and project into being. Just like the quality of a camera lens, the material of the fitting determines the sharpness and quality of the image. And the outcome depends on the talent of the person responsible for this, the lighting designer.

Pure elegance and passion for design: our products are balanced treasures with extended study of materialization and technology. We create handcrafted masterpieces that take interior design to a higher level with a timeless classy look. A high level of precision and form follows function philosophy.

As designers and manufacturers, we opt for technical perfection, quality materials and finishes. Rather than chasing impressive designs, we strive for innovative practicality. For example, **Trizo21** uses solid materials such as aluminium and brass for rigid and seamless fittings that suit any interior. The latest LED technology tops off a wide range of captivating fittings that can be attached or built in.

Aude-Table

design by
Bruno Van Meenen

Aude-Table gunmetal

Made using sophisticated techniques such as 3D printing, high-quality LED and massive materials, the Aude-Table is the newest creation of Trizo21. All these characteristics make it beautifully functional and are skillfully brought to life with the Trizo21's signature mix of craftsmanship and playfulness.

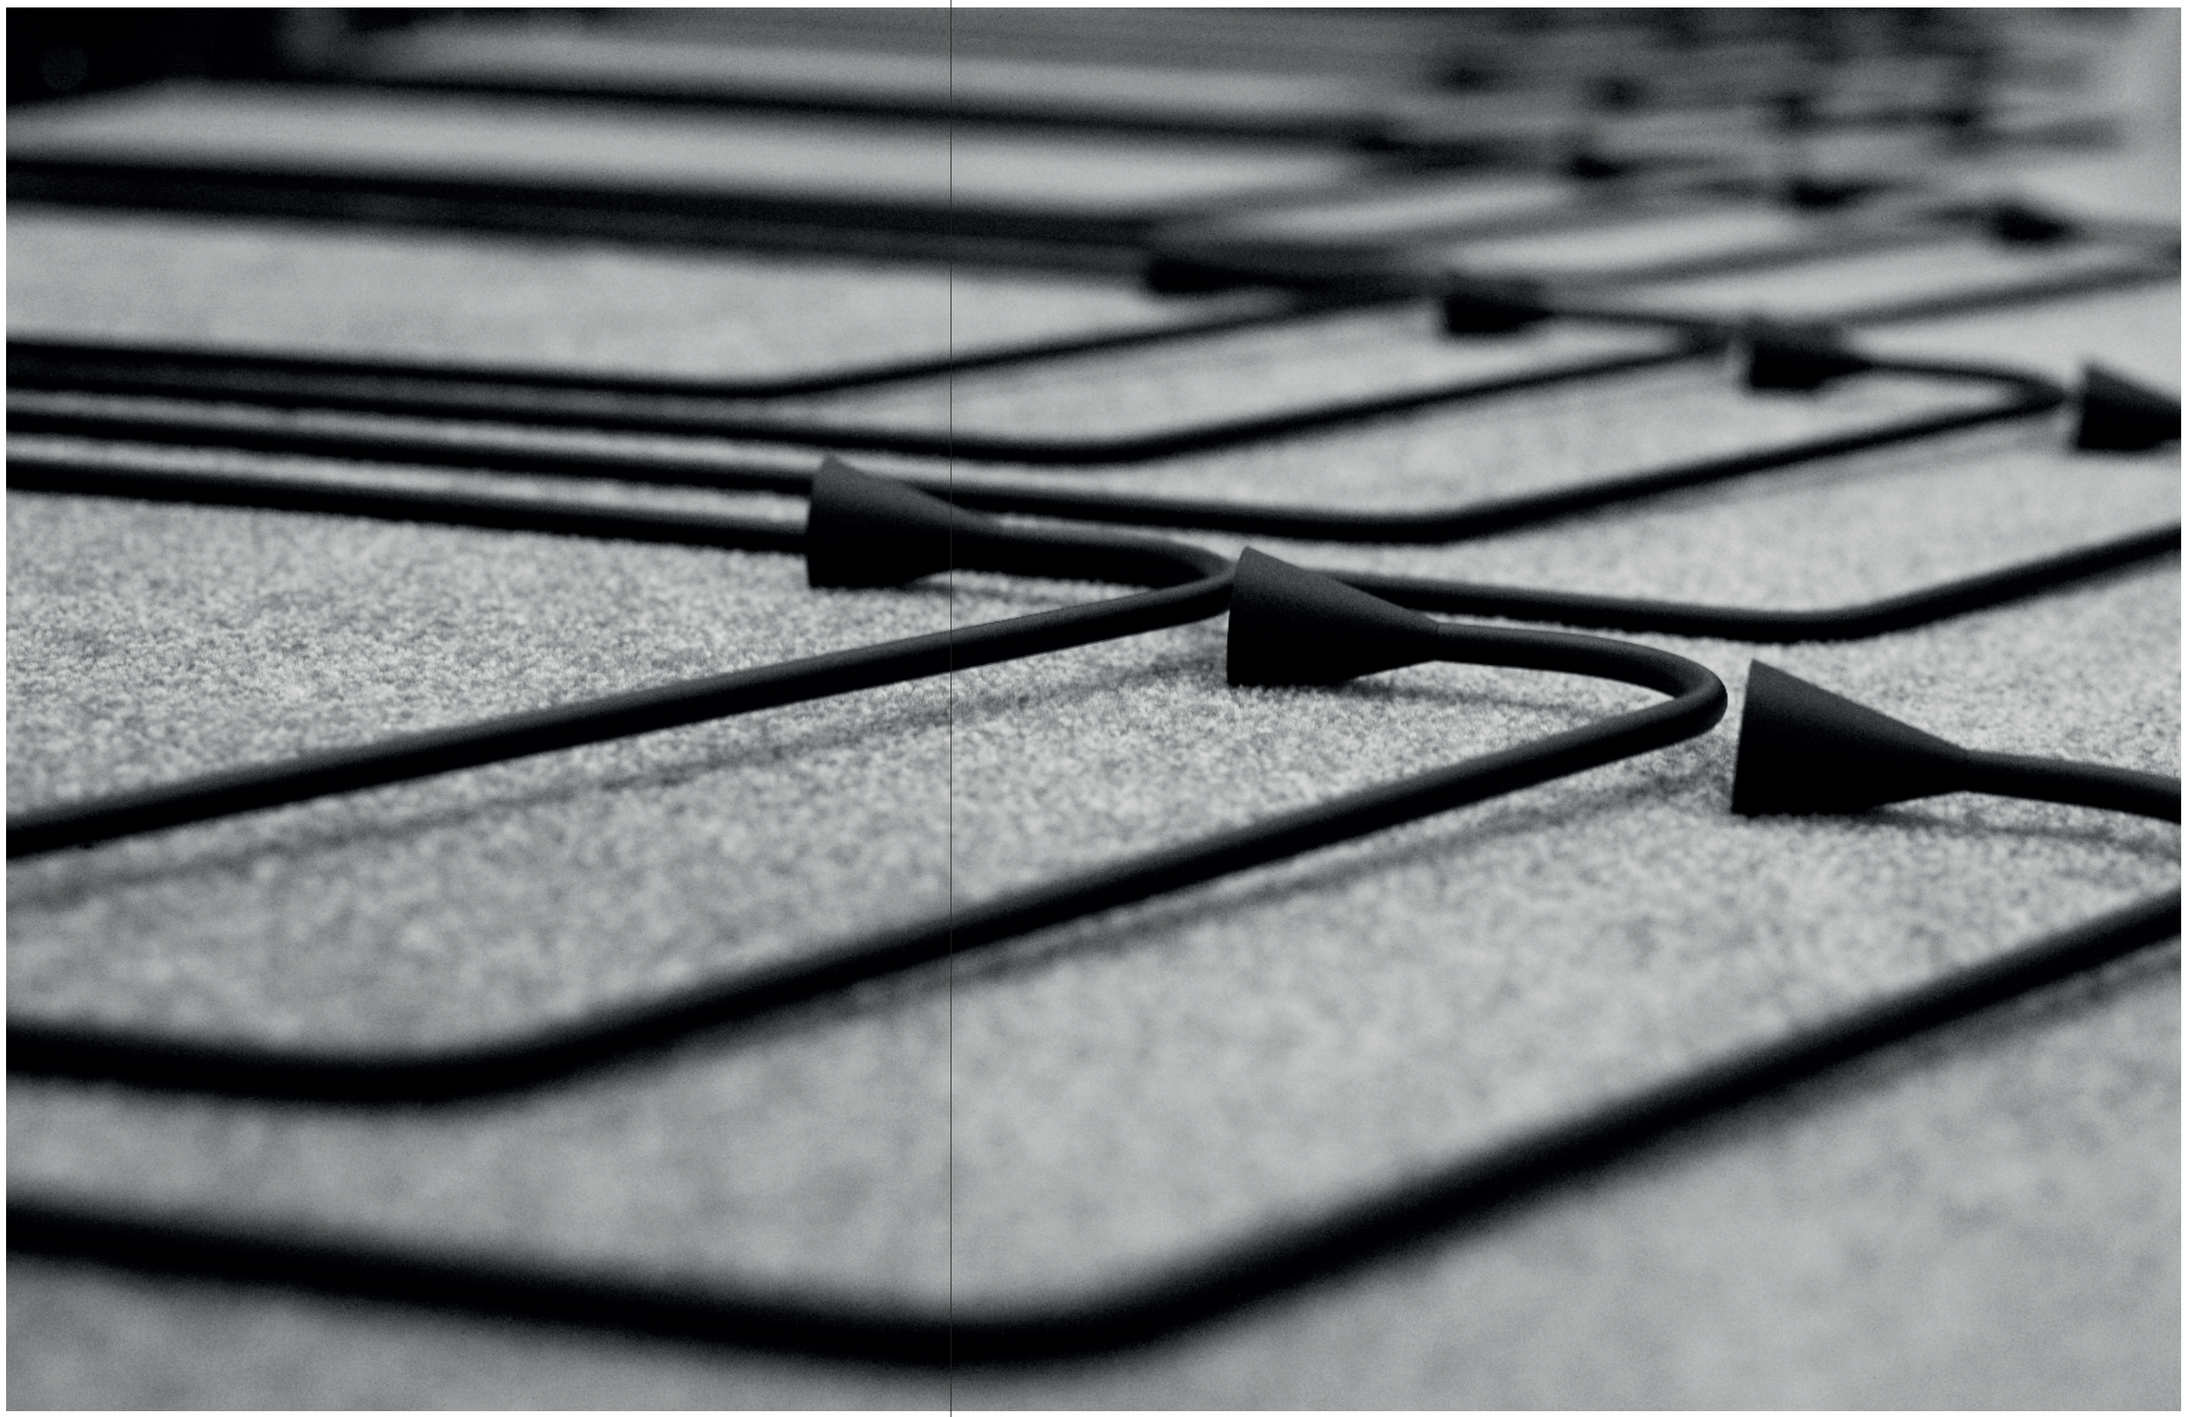
Austere



design by
Hans Verstuyft

Austere- Chandelier

design by
Hans Verstuyft

The Austere-Chandelier allows you to create unique compositions with depth. A well-thought-out combination of the various components will create real eye-catchers that look magnificent in lobbies, reception areas or dining rooms.

You can opt for an explosion of light or opt for fine chandeliers that provide an 'Austere' ambiance. The puzzle pieces are ready to be composed into a unique fixture and chandelier combination.

Sirens

design by
Olga Bielawska

Sirens

design by
Olga Bielawska

The Sirens is very different. It is a combination of mirrors and remarkable light fittings that captures your attention in a poetic way... and then holds it. The elegant silhouette is made of copper and is eye-catching in the room. This practical and aesthetic fitting combines mirrors and lighting in a decorative manner.
