

Aqua Creations Light That Matters

Selected Works 2019

Aqua Creations
Light That Matters

Director's Note

Aqua Creations is a life-long journey of travelling through light, art and technology.

We find fulfillment in designing, making and documenting organic, sculptural lighting and furniture pieces. Each of our objets d'art are made by hand with care, craftsmanship and diligence by our devoted team.

The two parts of this book reflect our two most prominent virtues—our freedom of creativity and our love for fine detail—both of which make our lights and furniture the masterpieces they are.

May this journey never end.

— Albi Serfaty, founder of Aqua Creations

Part I: Photographs / p.8-235

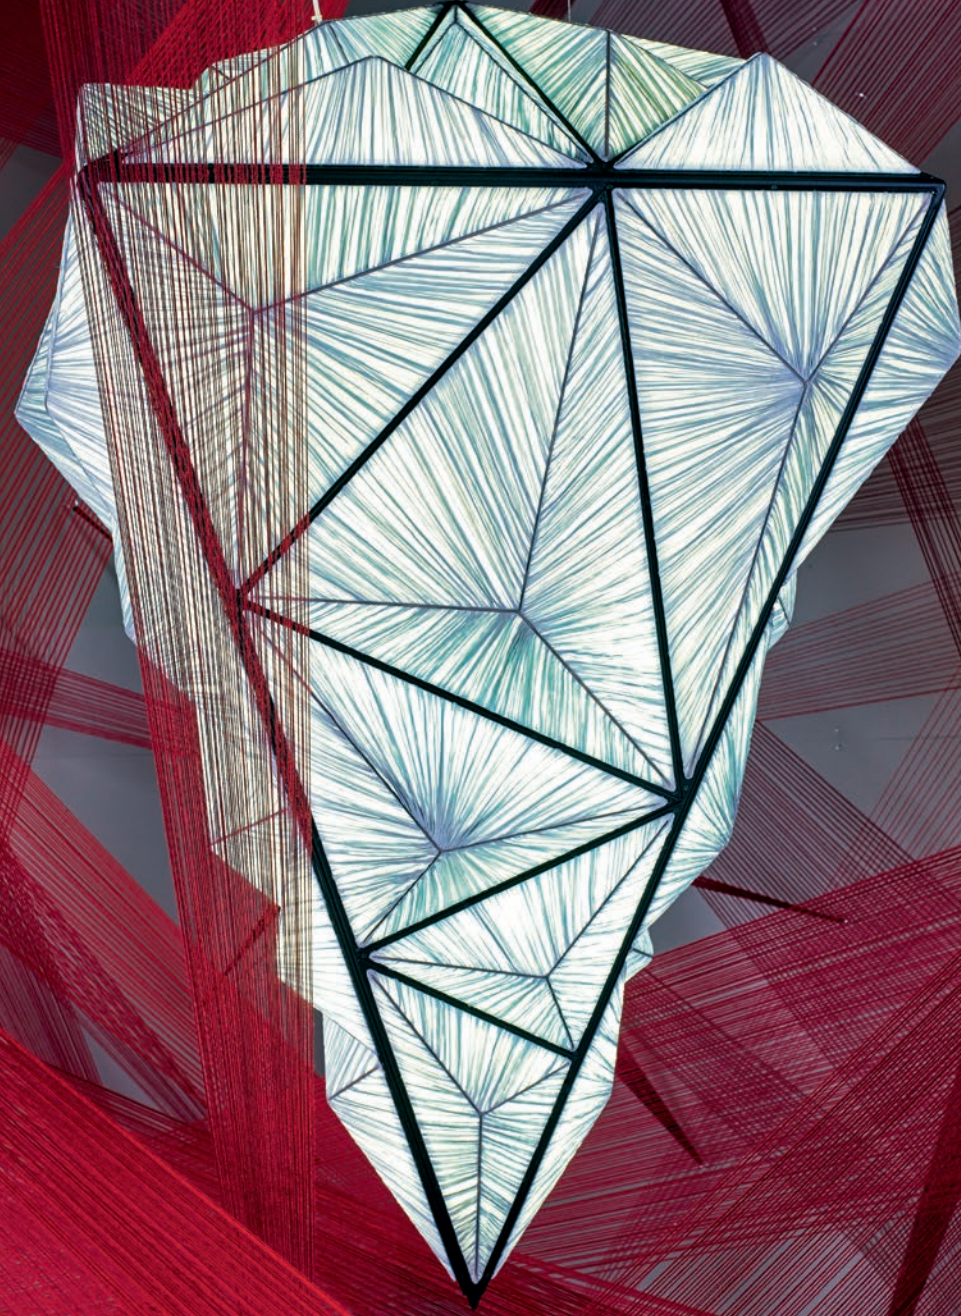

Part II: Product Details / p.238-251

Zooid Family

Inspired by natural gems and crystals, the Zooid Family lights' geometric shapes perfectly distribute light with either silk or polymer shades. The wide variety of shapes and sizes means they could suit your bedroom wall, as well as a lobby center piece.

Suspended Lights / Zooid Diamond Pendant
Photo by Oliver Koning

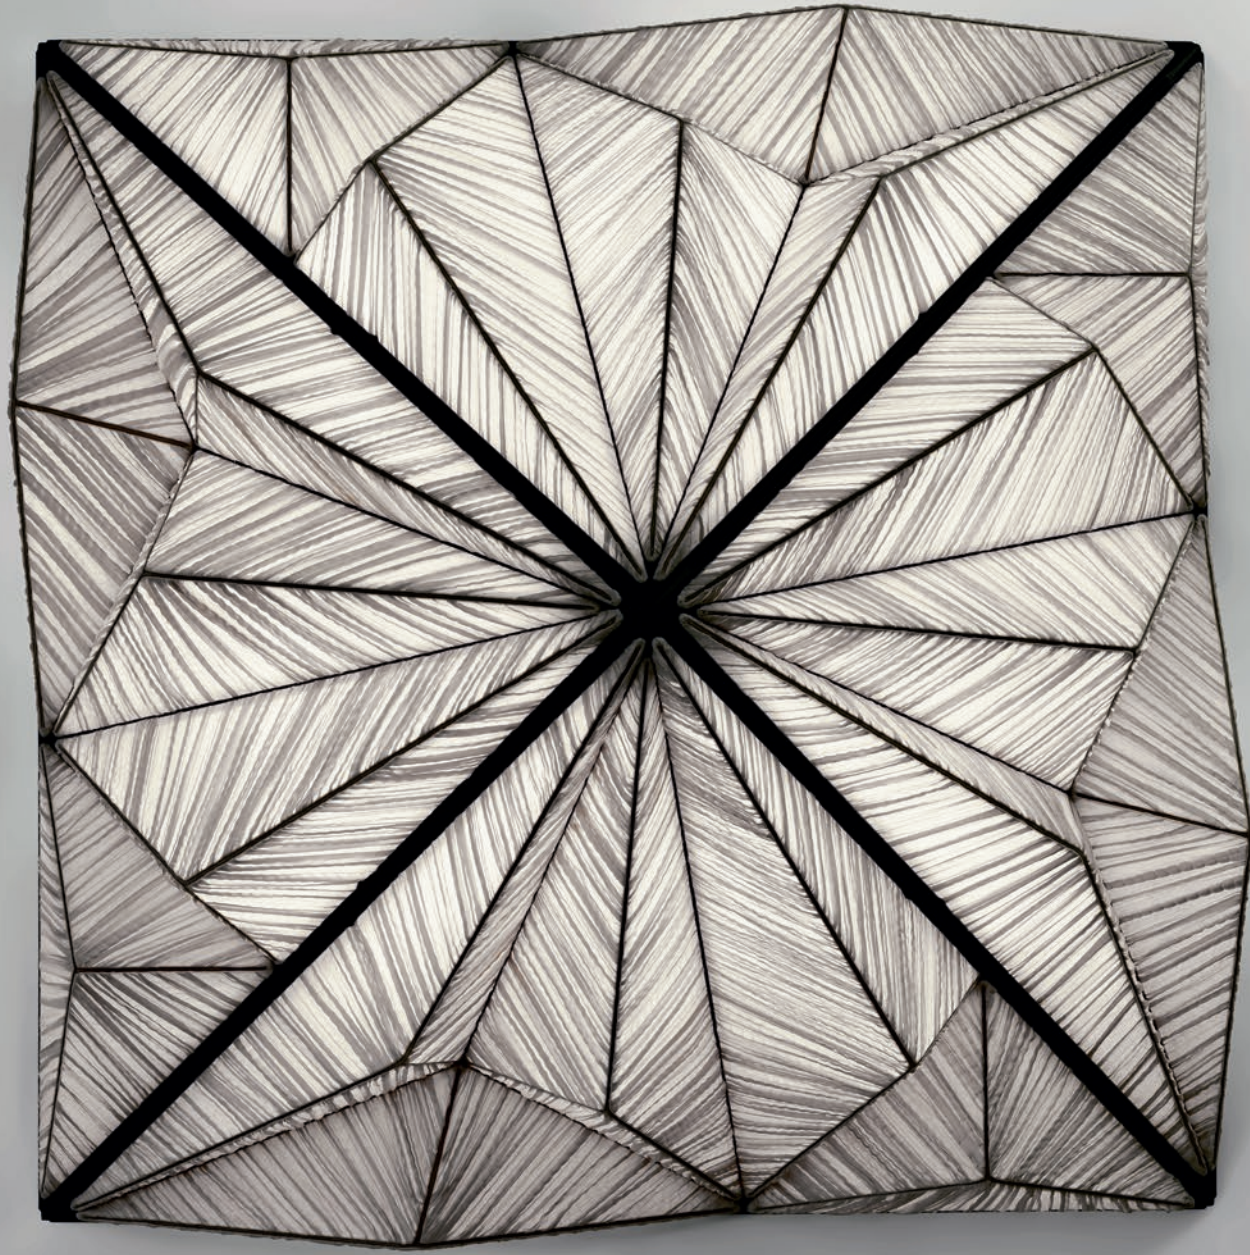

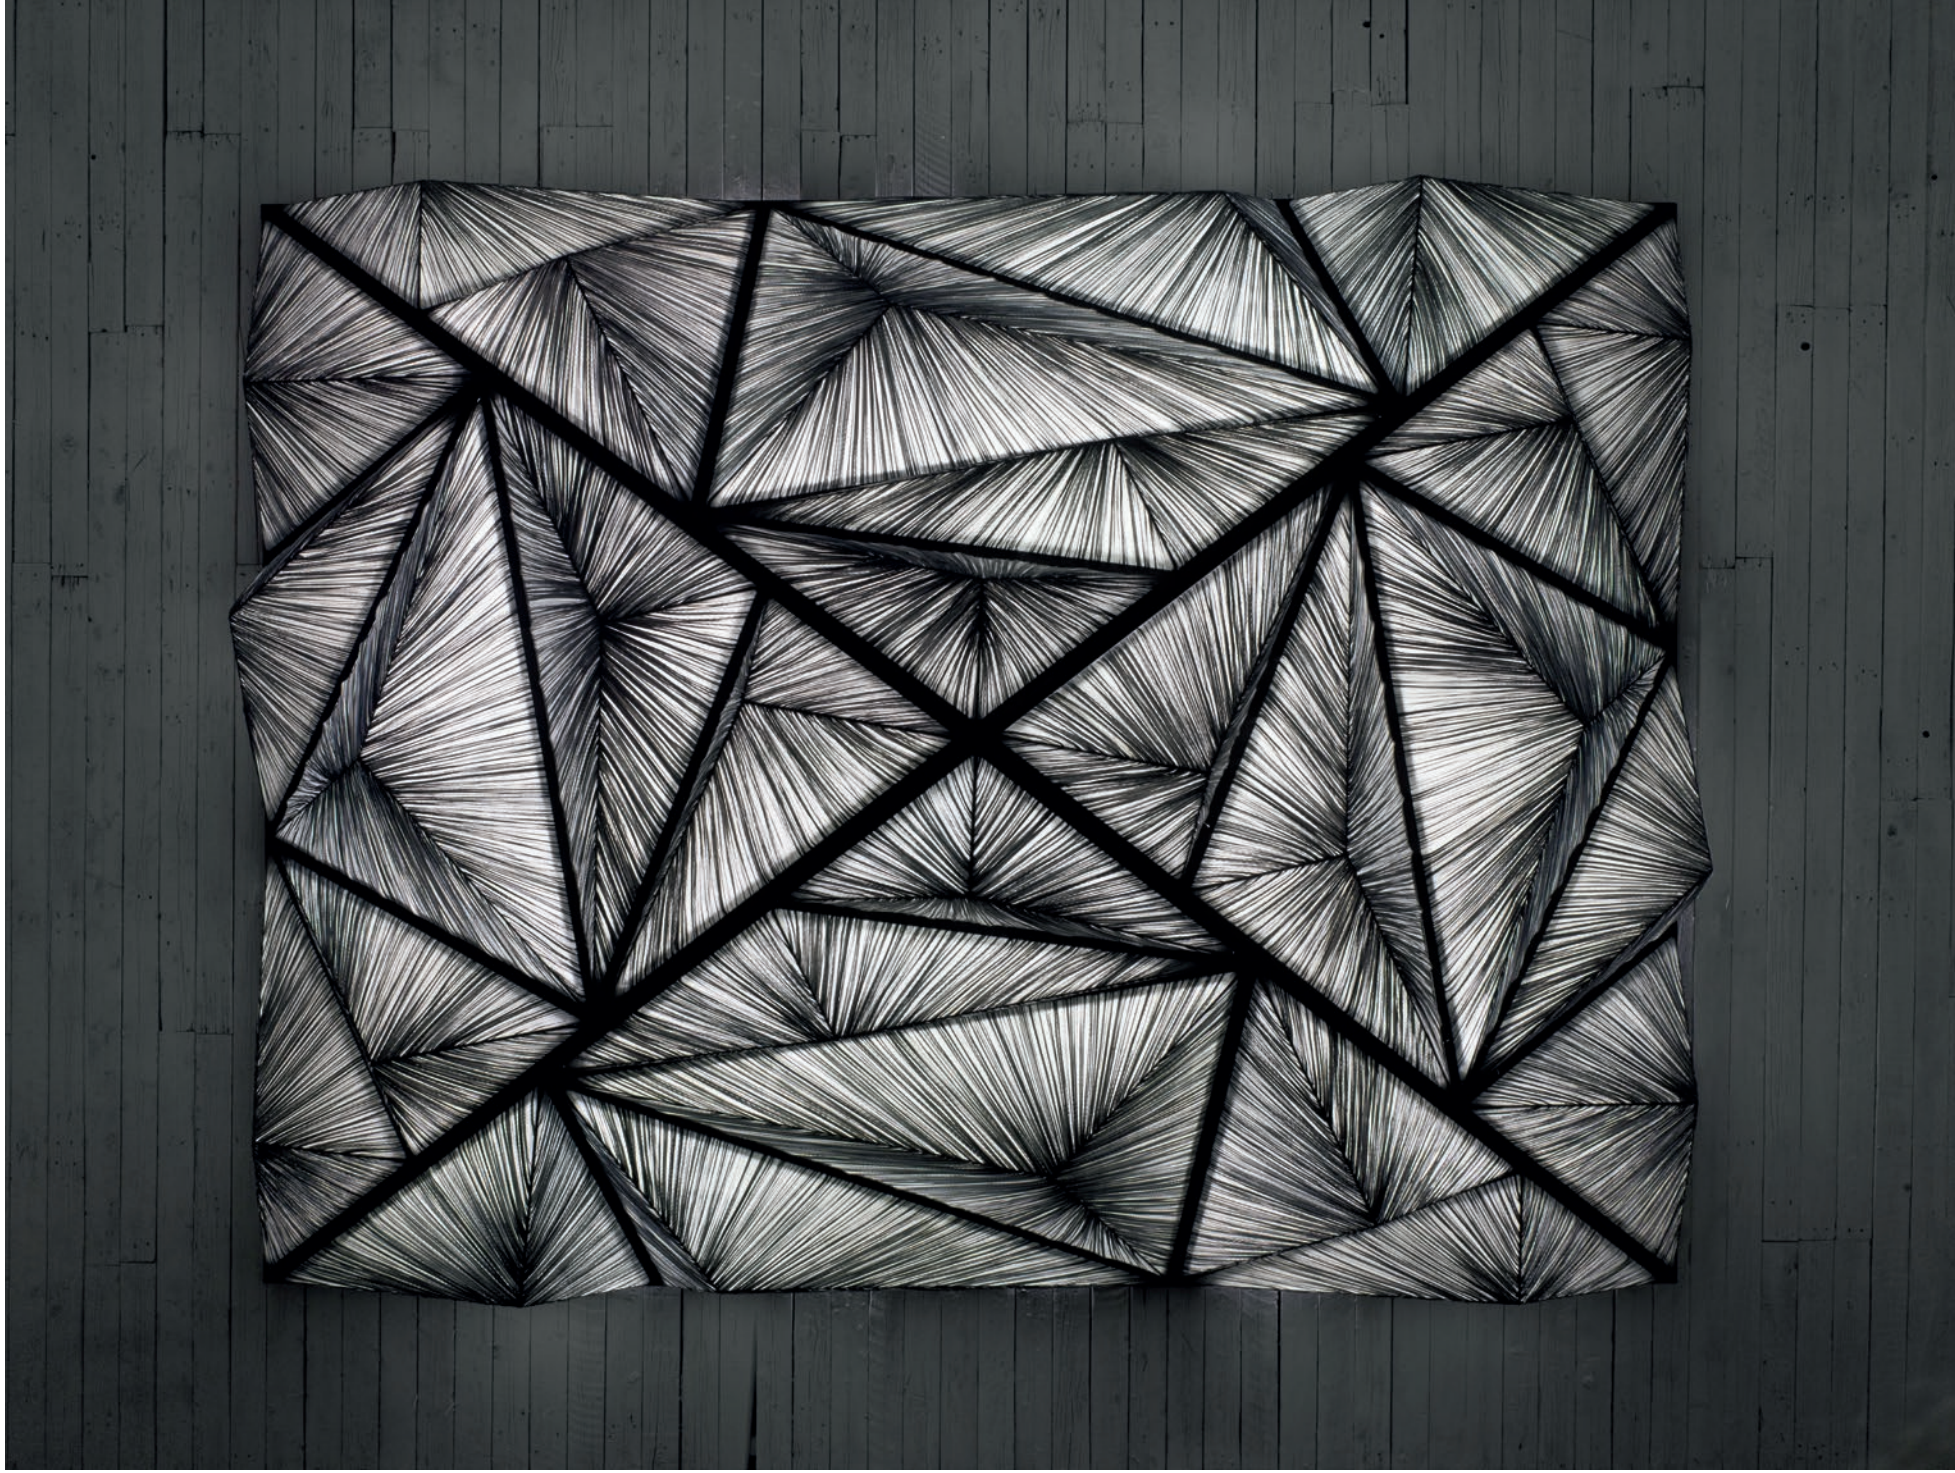

VAL Family

Completely customisable and controlled via your smartphone as individuals or groups, the VAL family lights' offers a dynamic range of shapes and sizes. Hue, saturation, brightness and video files can be adjusted to fit your space and mood perfectly.

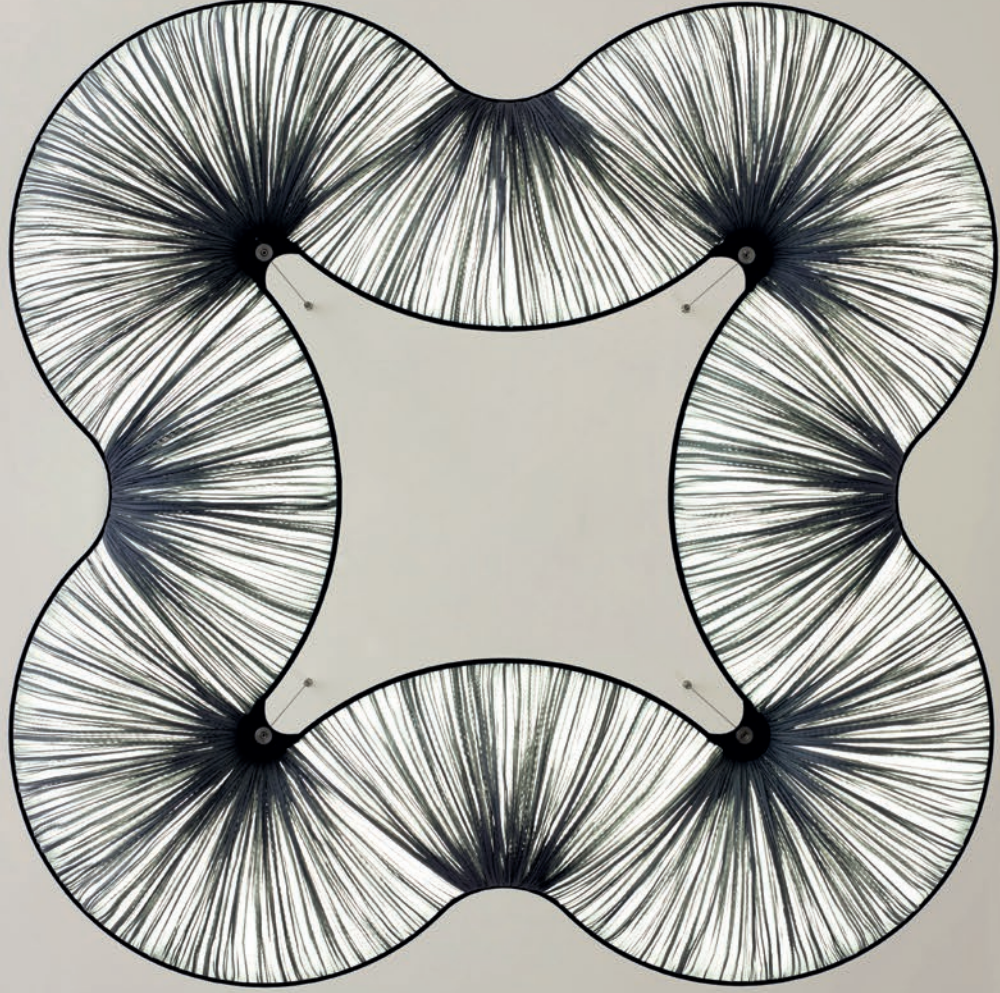

Morning Glory Family

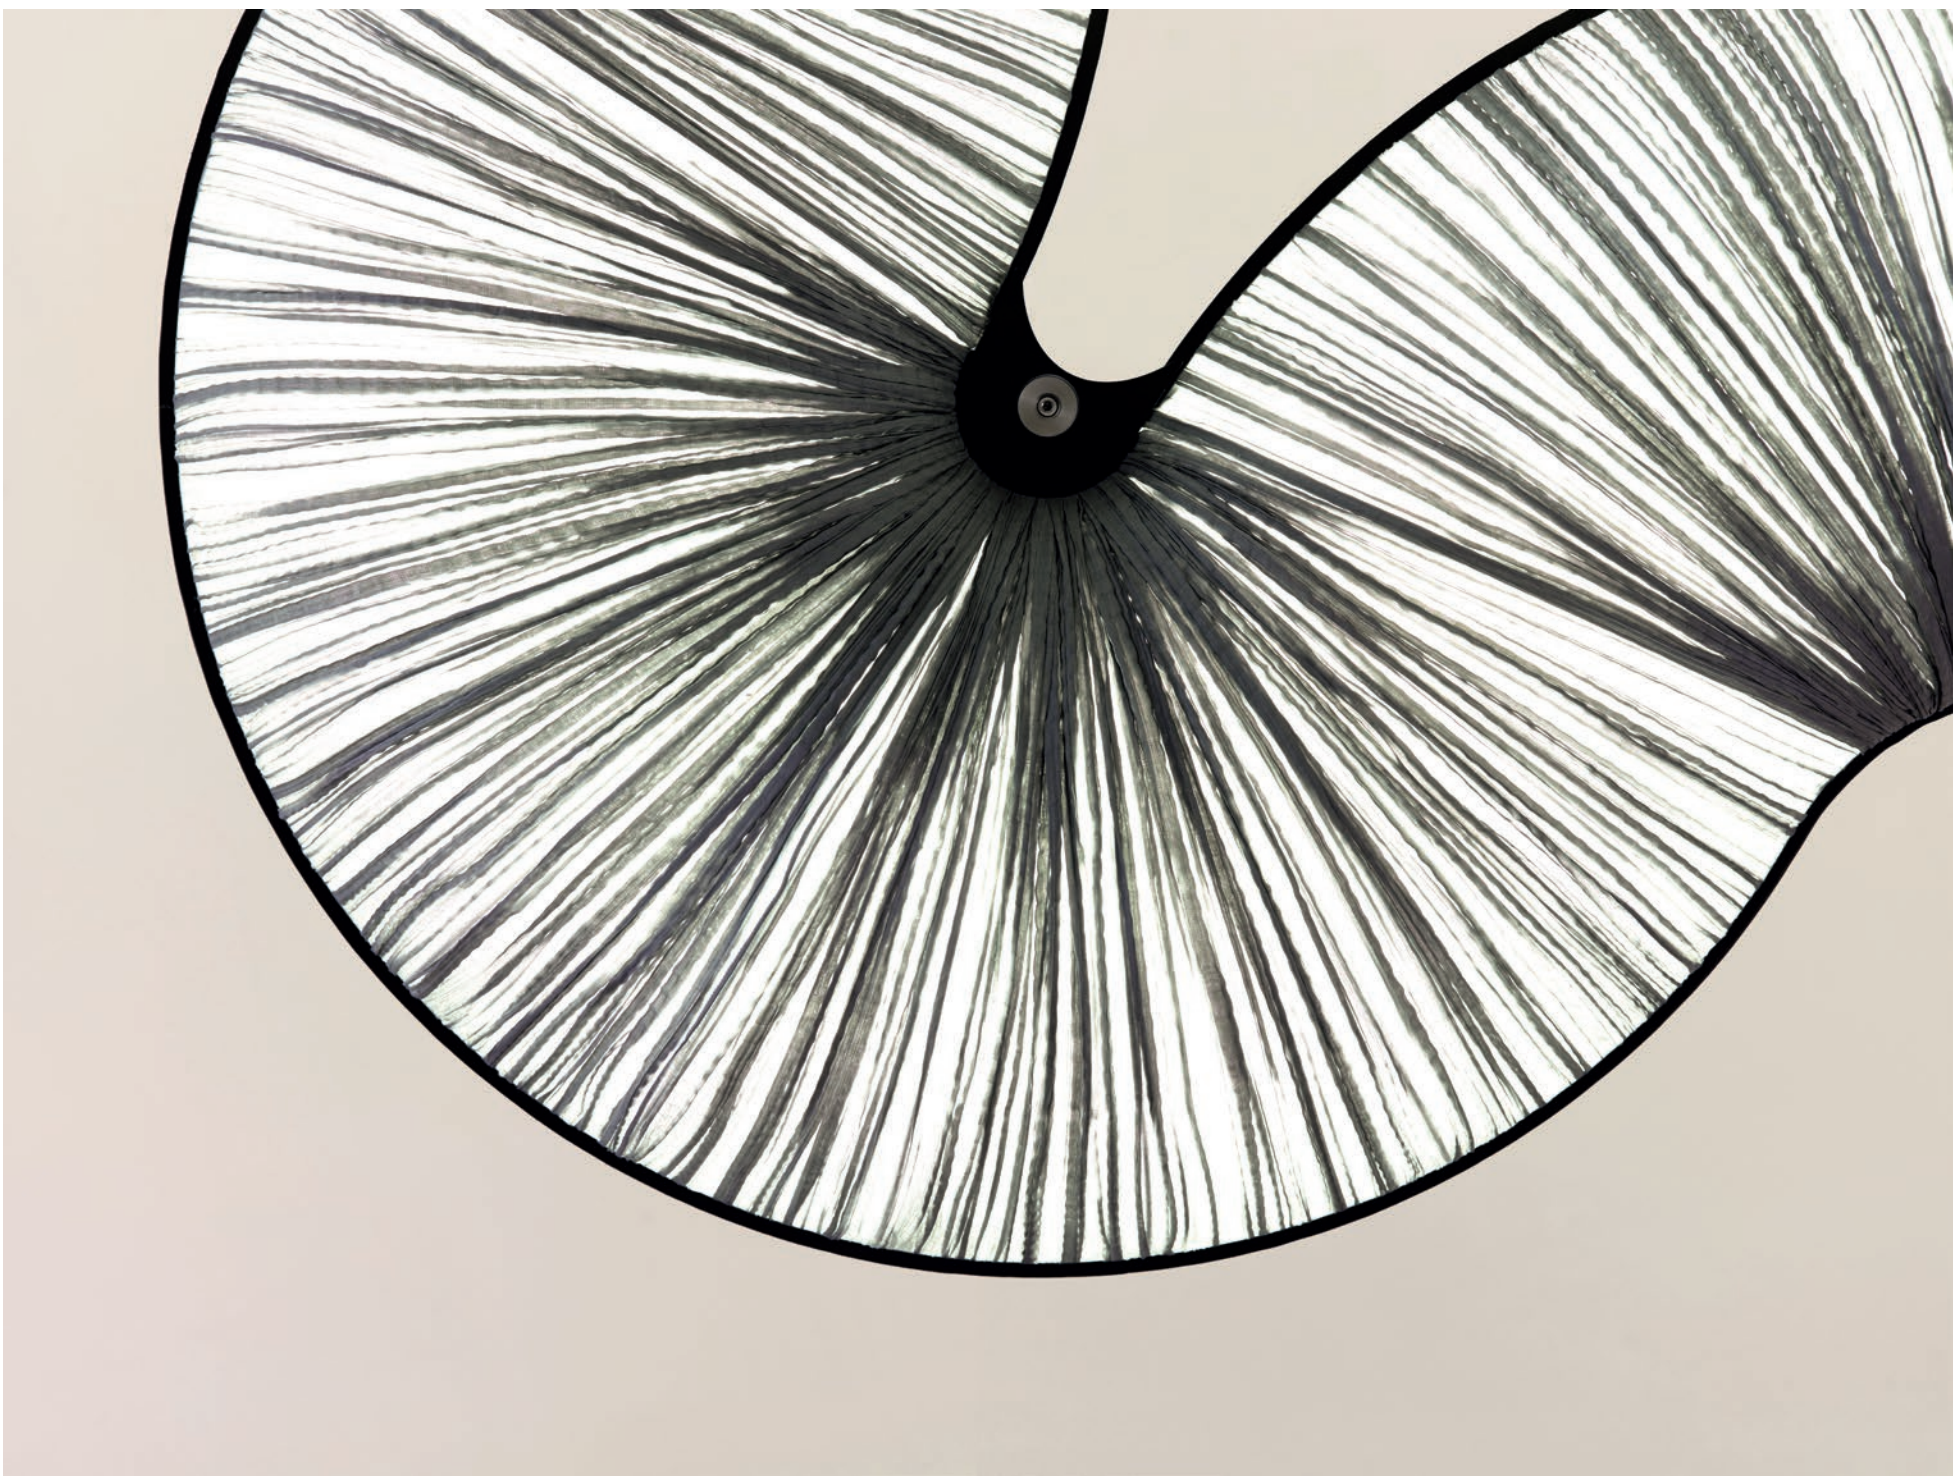

Our classic and best-selling family. These iconic lamps have round, feminine and sensual shapes, and cast a soft, dream-like glow.

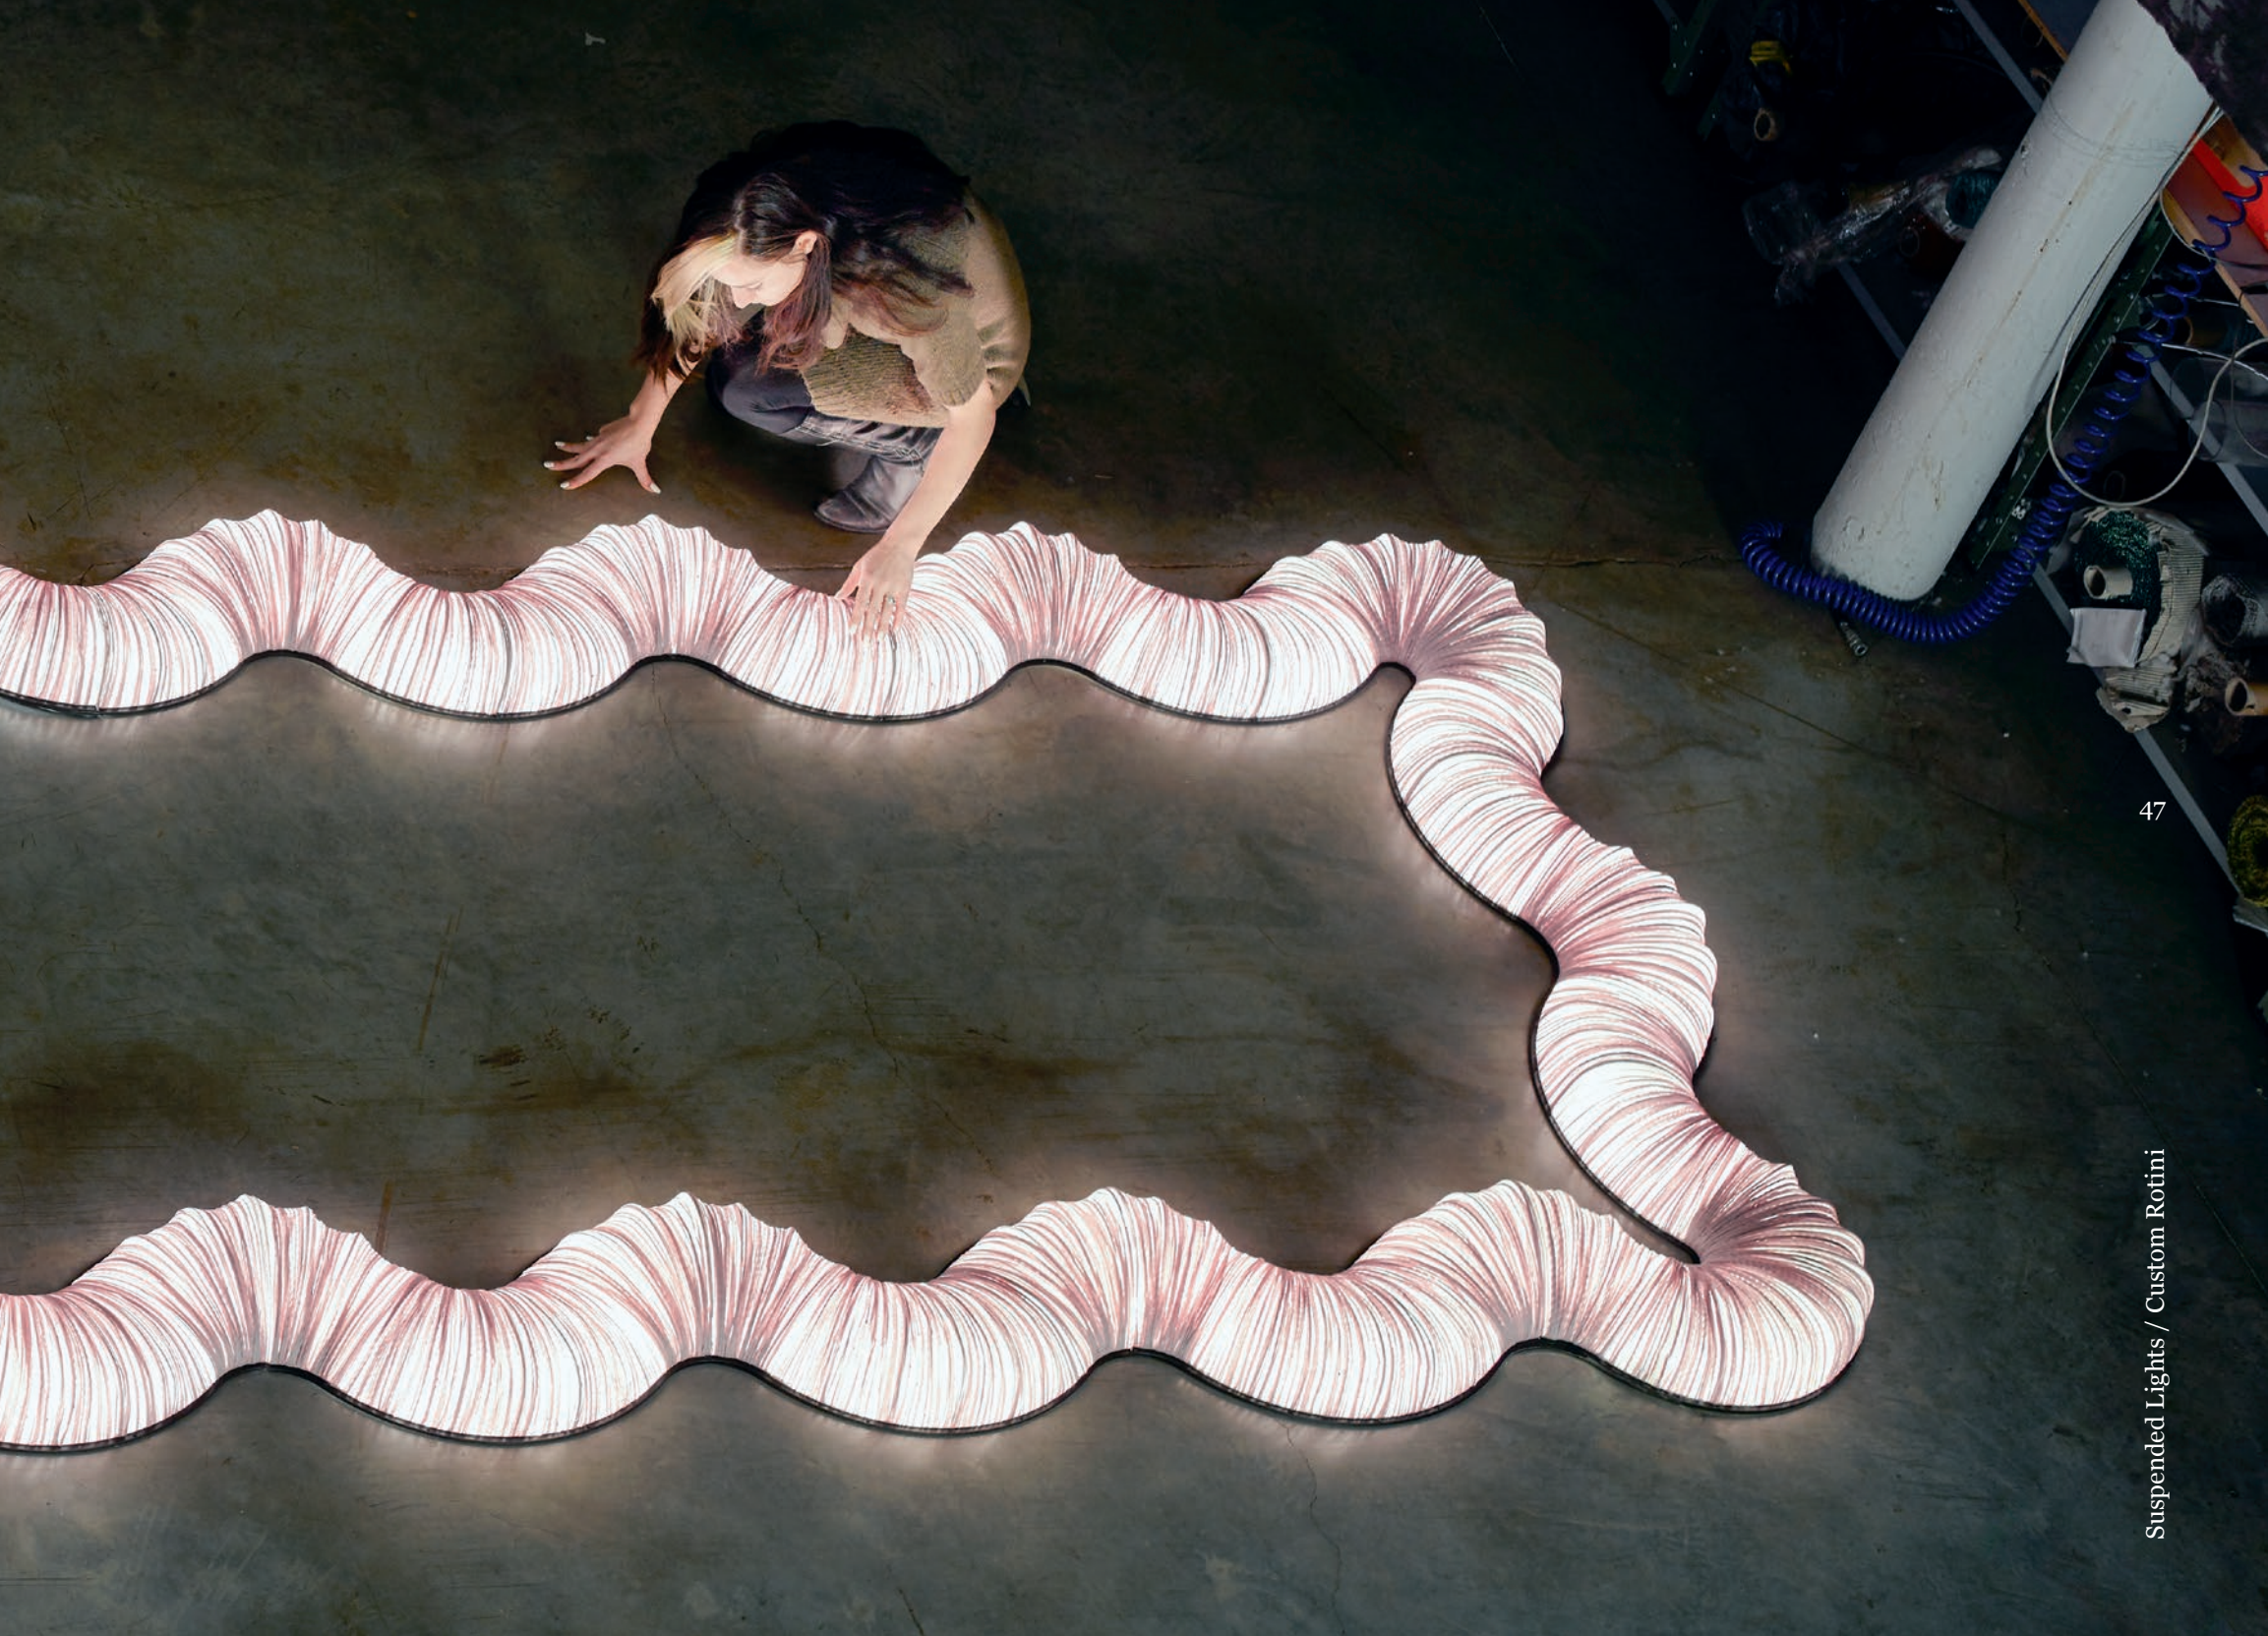

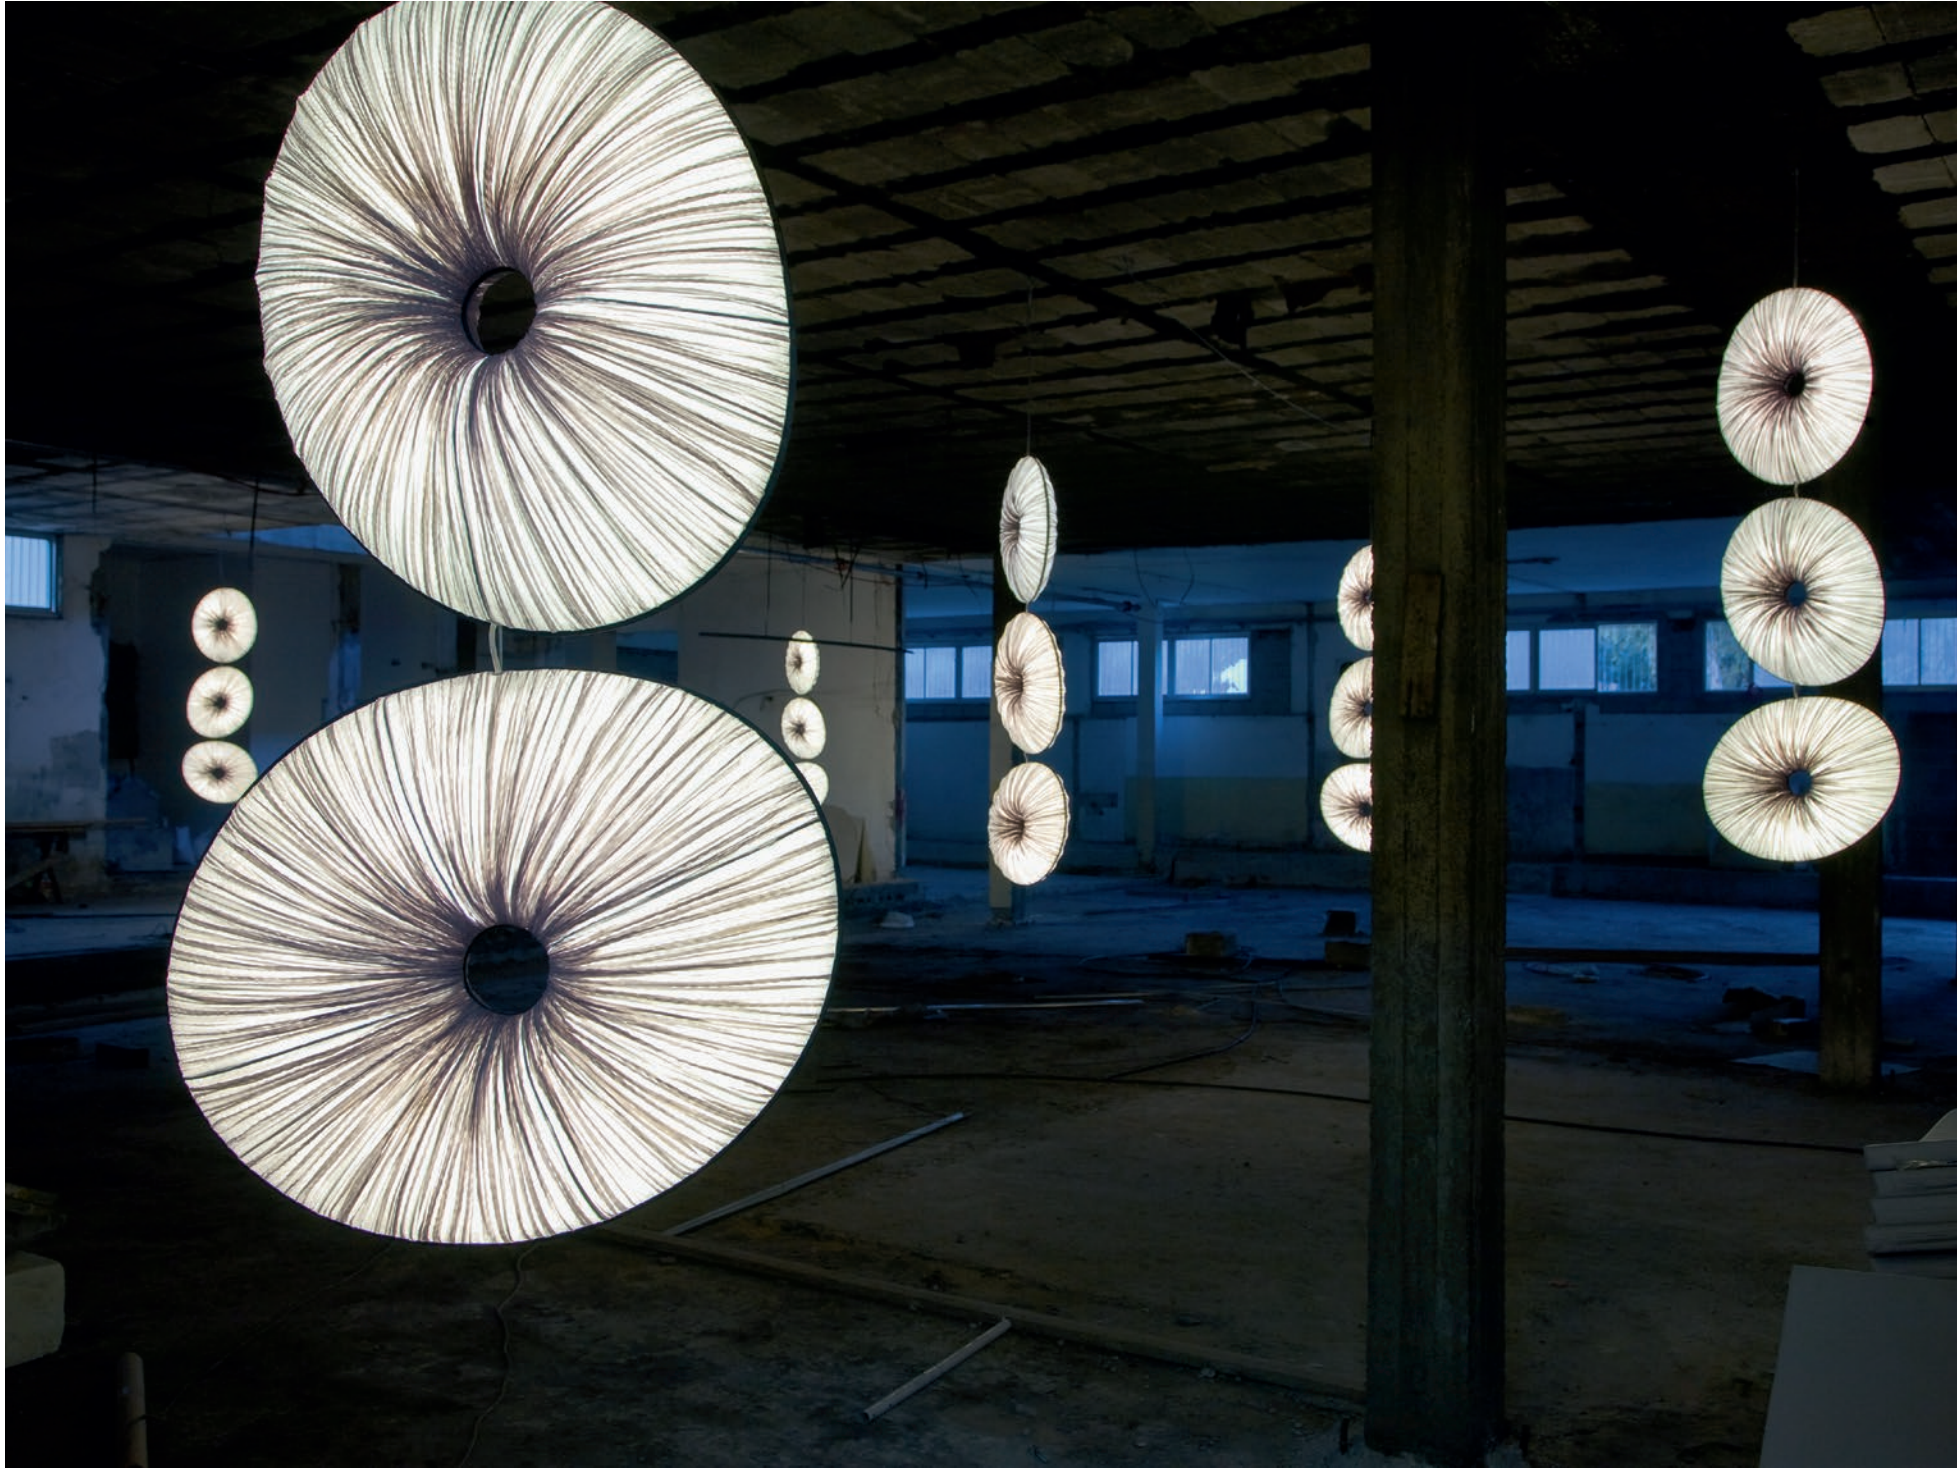

Jewel Family

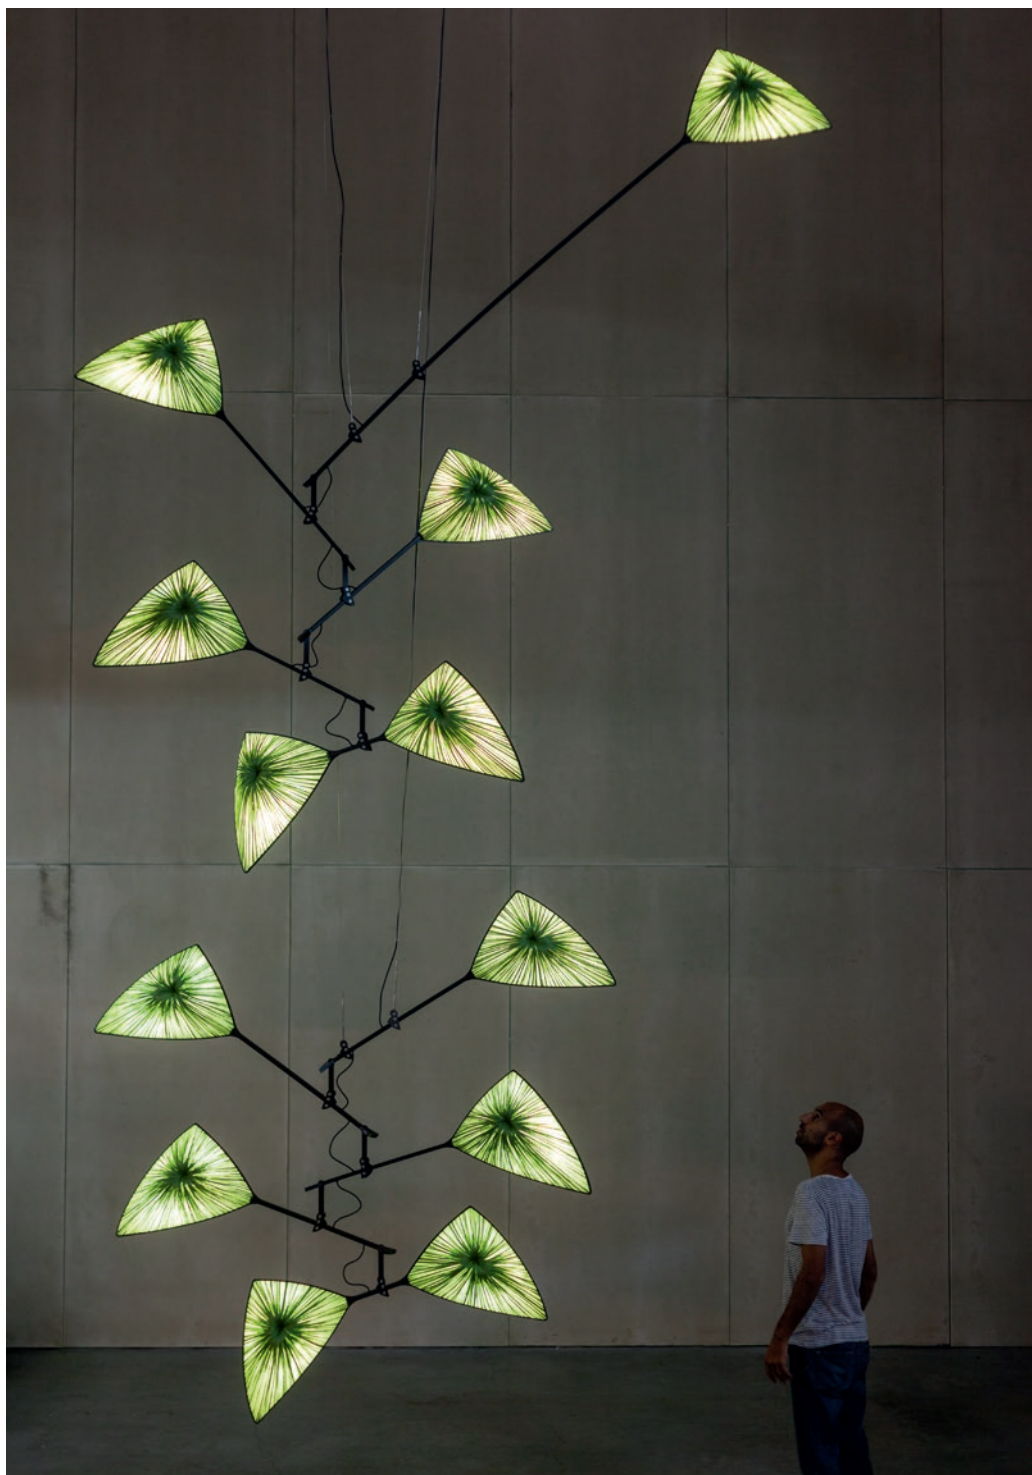

Playful and joyous, the Jewel Family members play homage to the kinetic artworks of Alexander Calder. The light mobiles magically move and sway mid air.

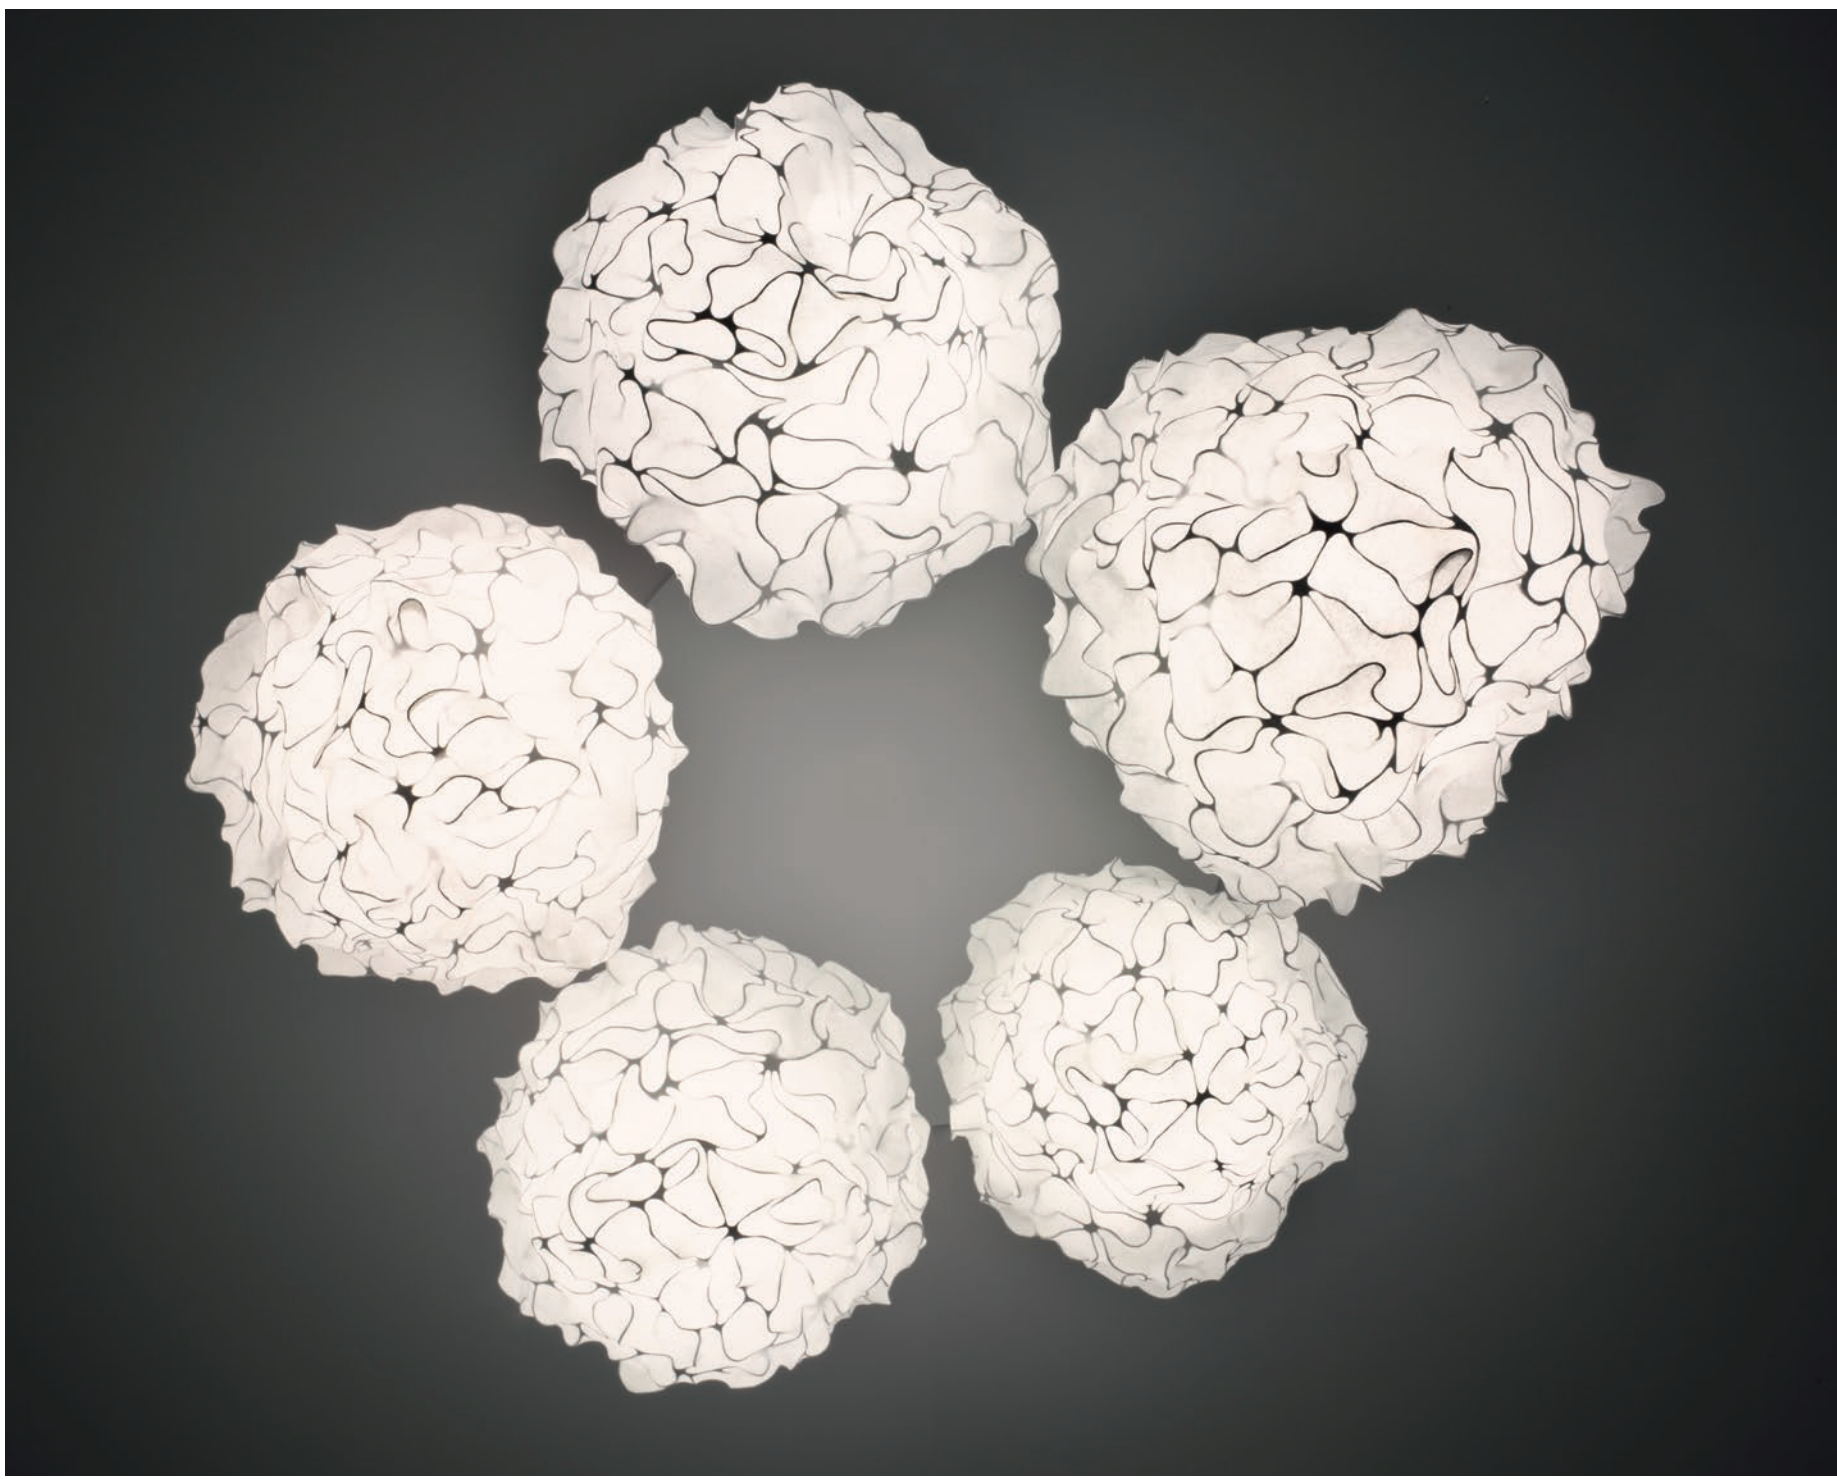

Mimosa Family

Inspired by neurons and organic cells, the Mimosa Family members are created using steel laser cutting techniques, then bent by hand to create a variety of shapes.

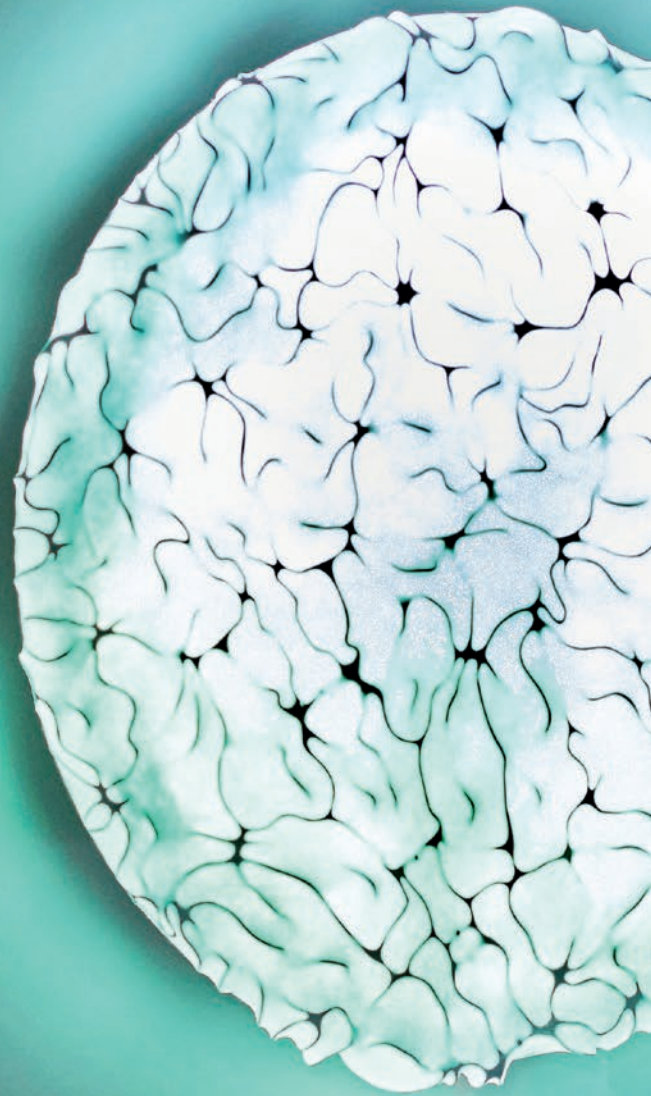

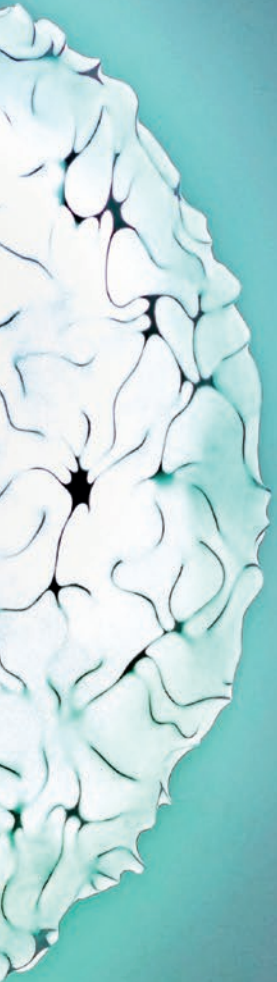

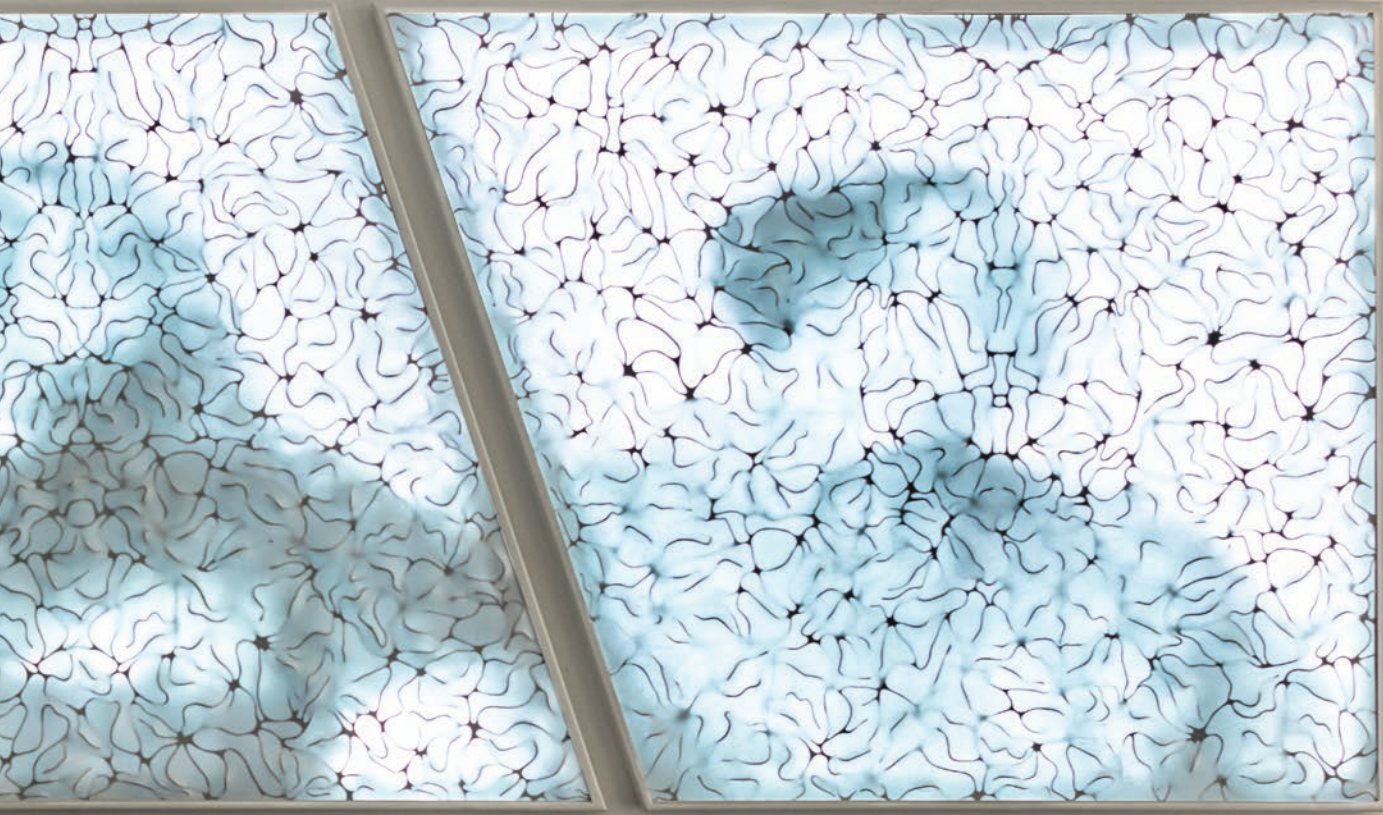

Mino Family

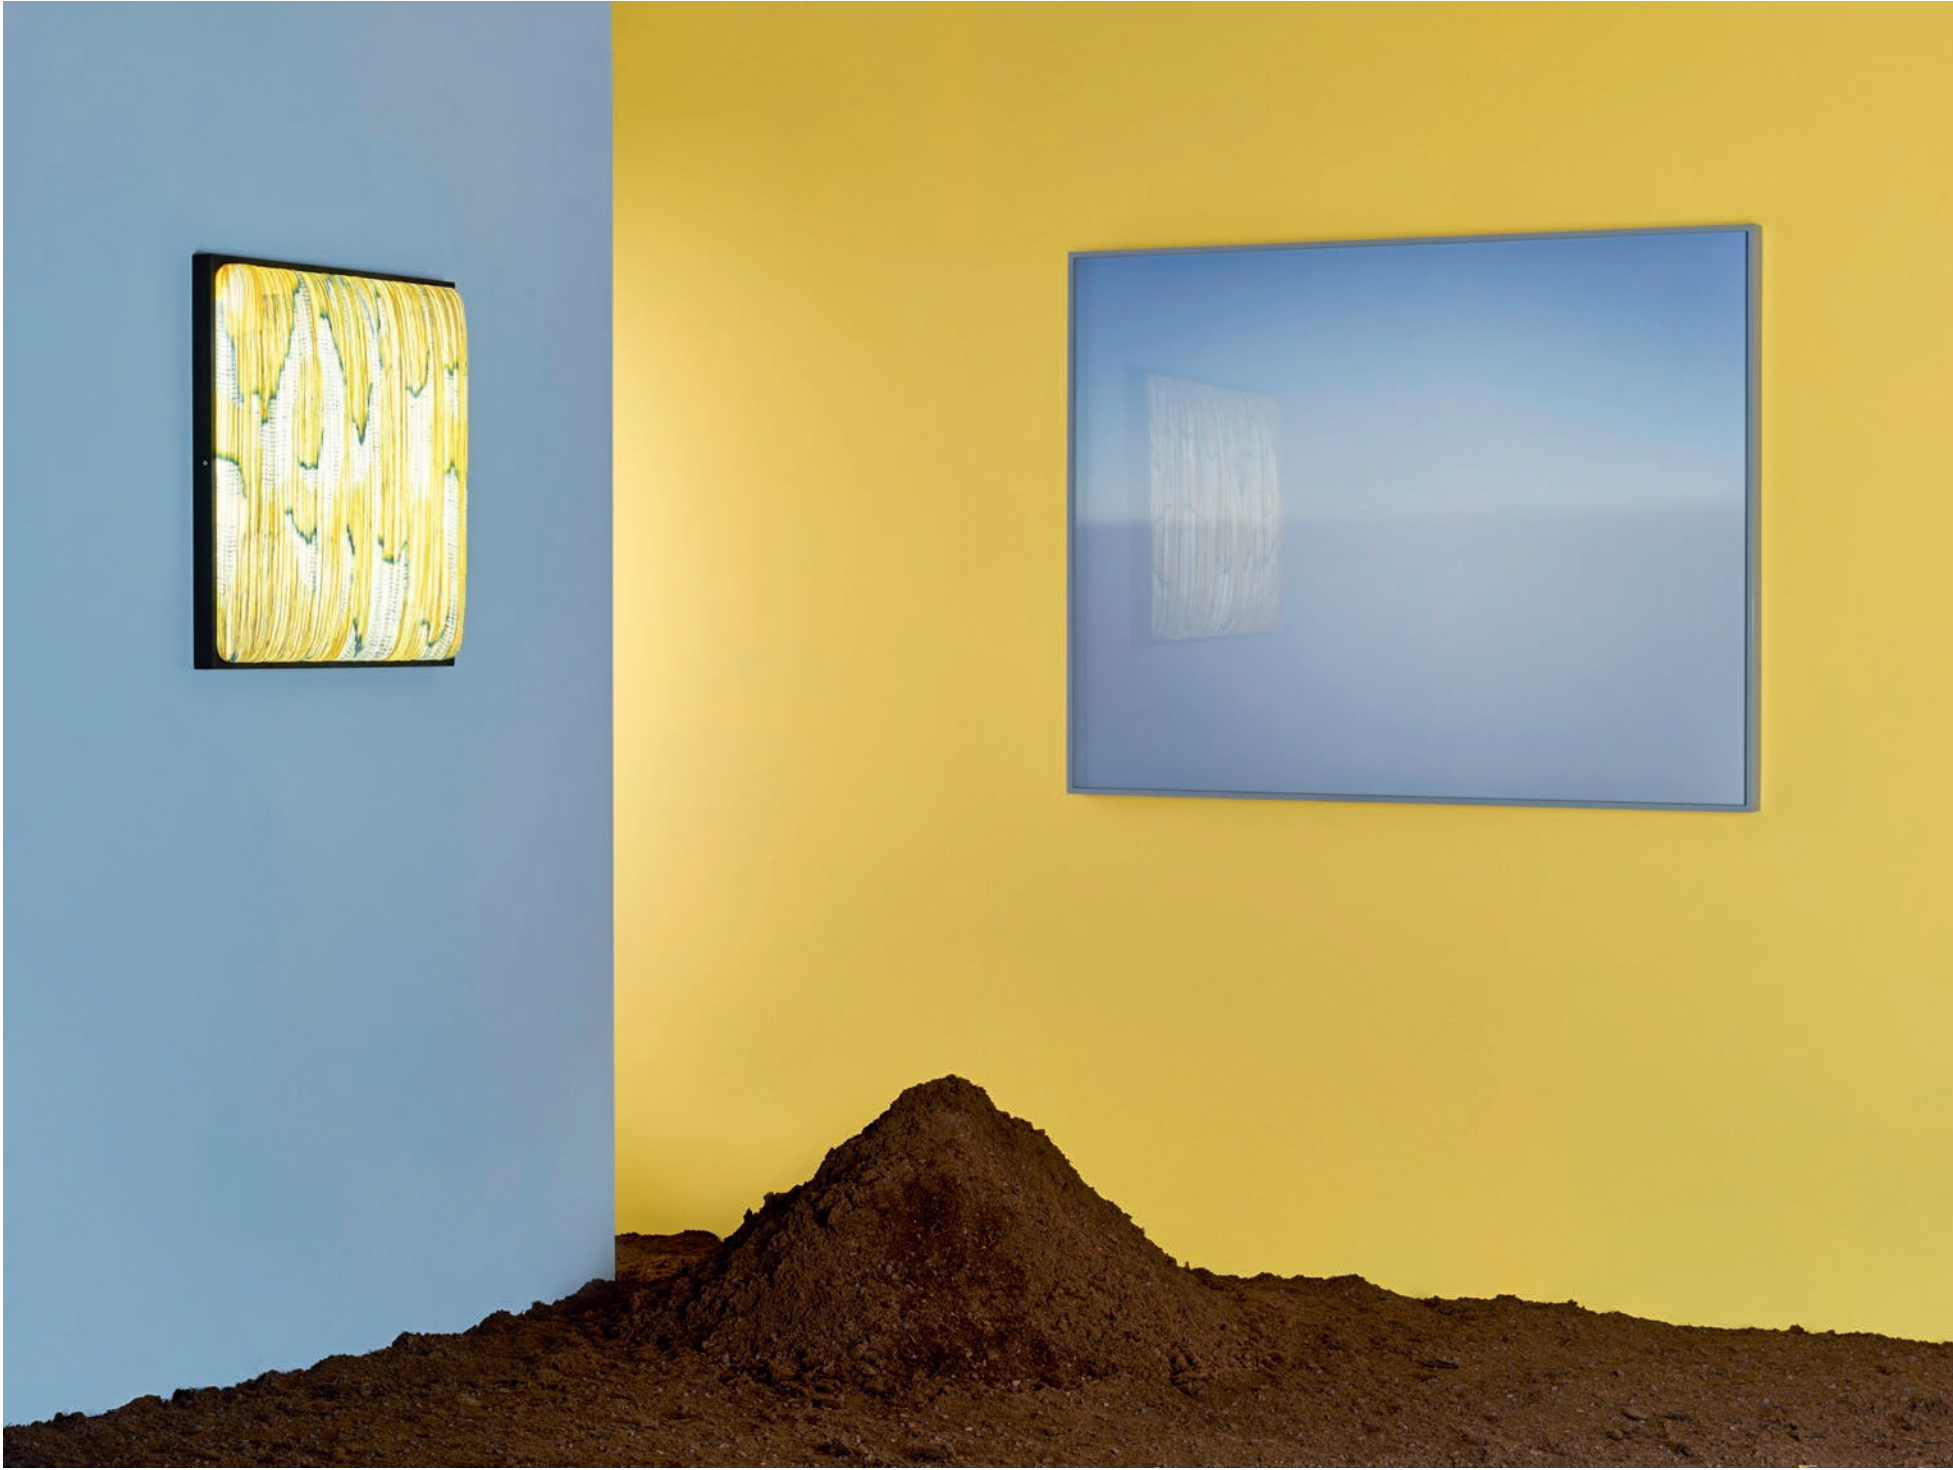

The Mino Family is composed of the Simon Says series and the Mino series. The Simon Says series includes Simon Says Yes (small square), Simon Says Maybe (rectangle), and Simon Says No (large square) in pendant, wall and ceiling forms.

Wall & Ceiling Simons can be mixed and matched to create illuminated patterns of any color and size combination on either walls or ceilings. Pendant Simons can be combined together to create vertical or horizontal compositions of two or three pieces each.

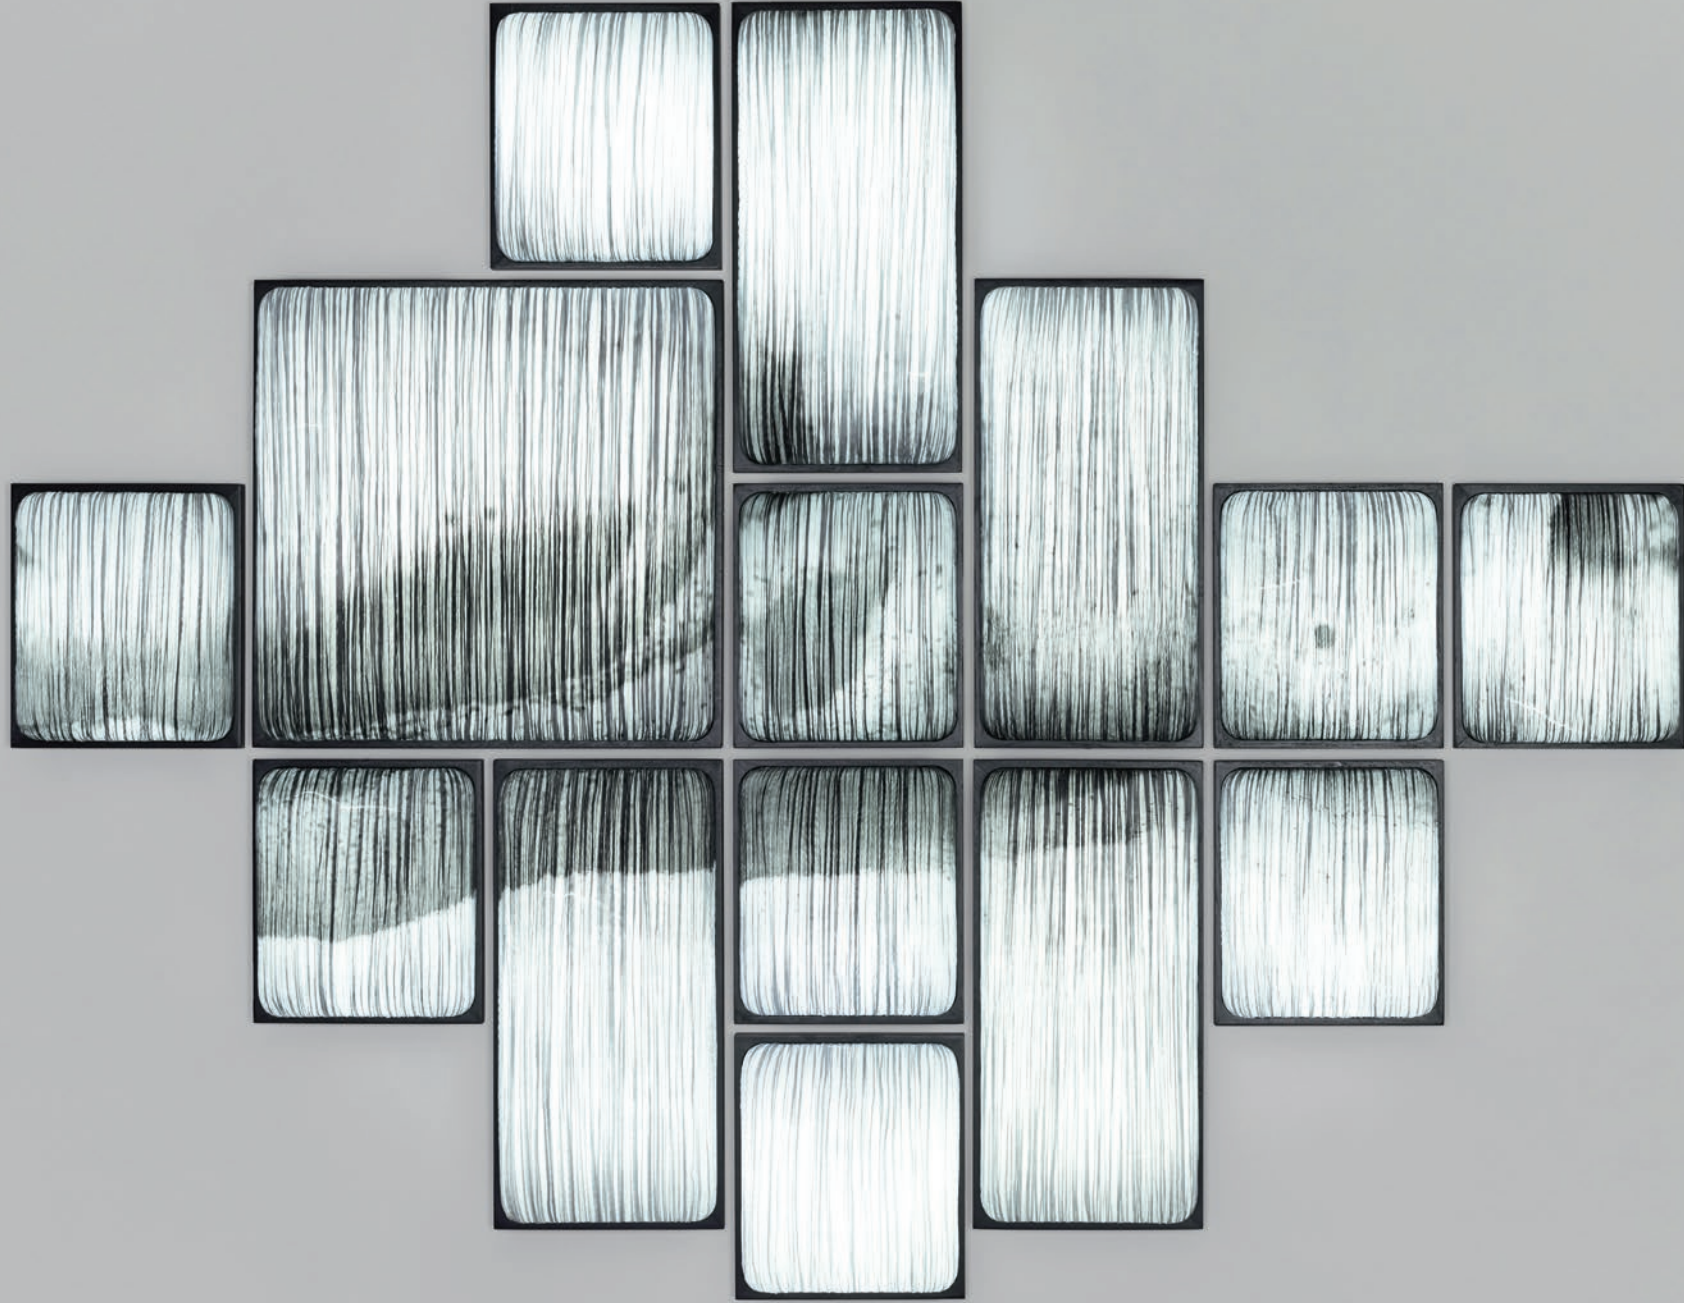

Wall & Ceiling Lights / Custom, hand-painted
Simon Says No with black frame

Molecules Family

The Molecules Family features a unique paper lampshade handcrafted by Aqua Creations with Ilan Garibi's signature tessellated design. The origami shade is matched with precise CNC digitally milled mahogany wood stand with touch activation and dimming.

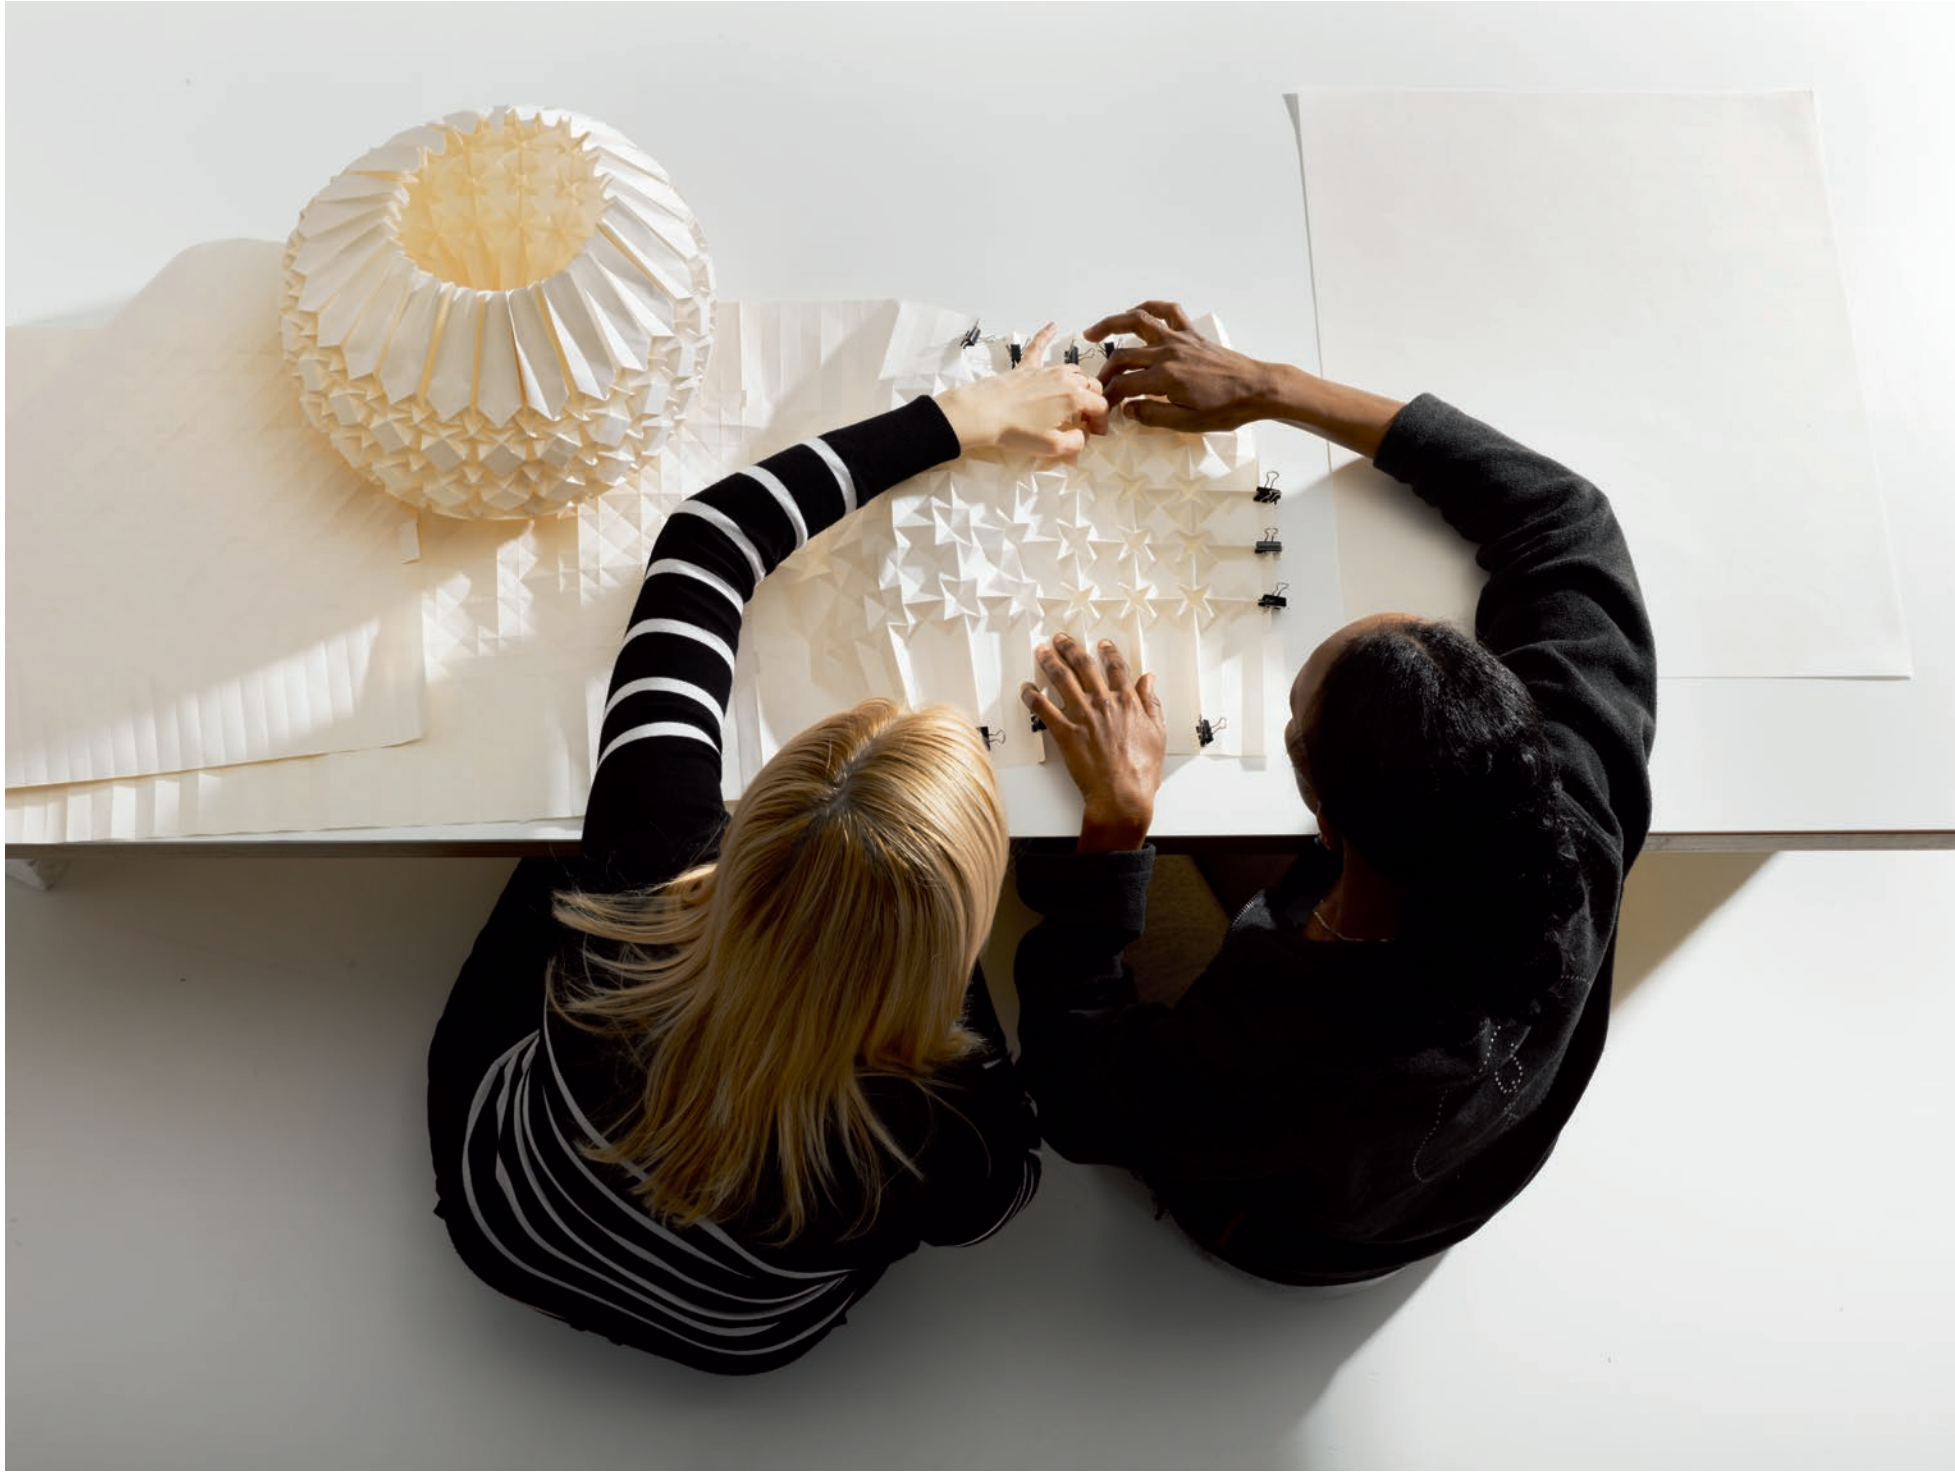

Apaya Family

These three dimensional lighting sculptures combine new technology with ancient felting techniques. Evoking organic forms, our Apaya floor lights use natural fibers and are among our most innovative lights.

ToTeM Family

Members of the ToTeM Family include the To, Te, and M shades, which have elongated, stretched or squared shapes respectively. They can be stacked vertically in any order to create playful, illuminated totems as pendant lights or standing floor lamps.

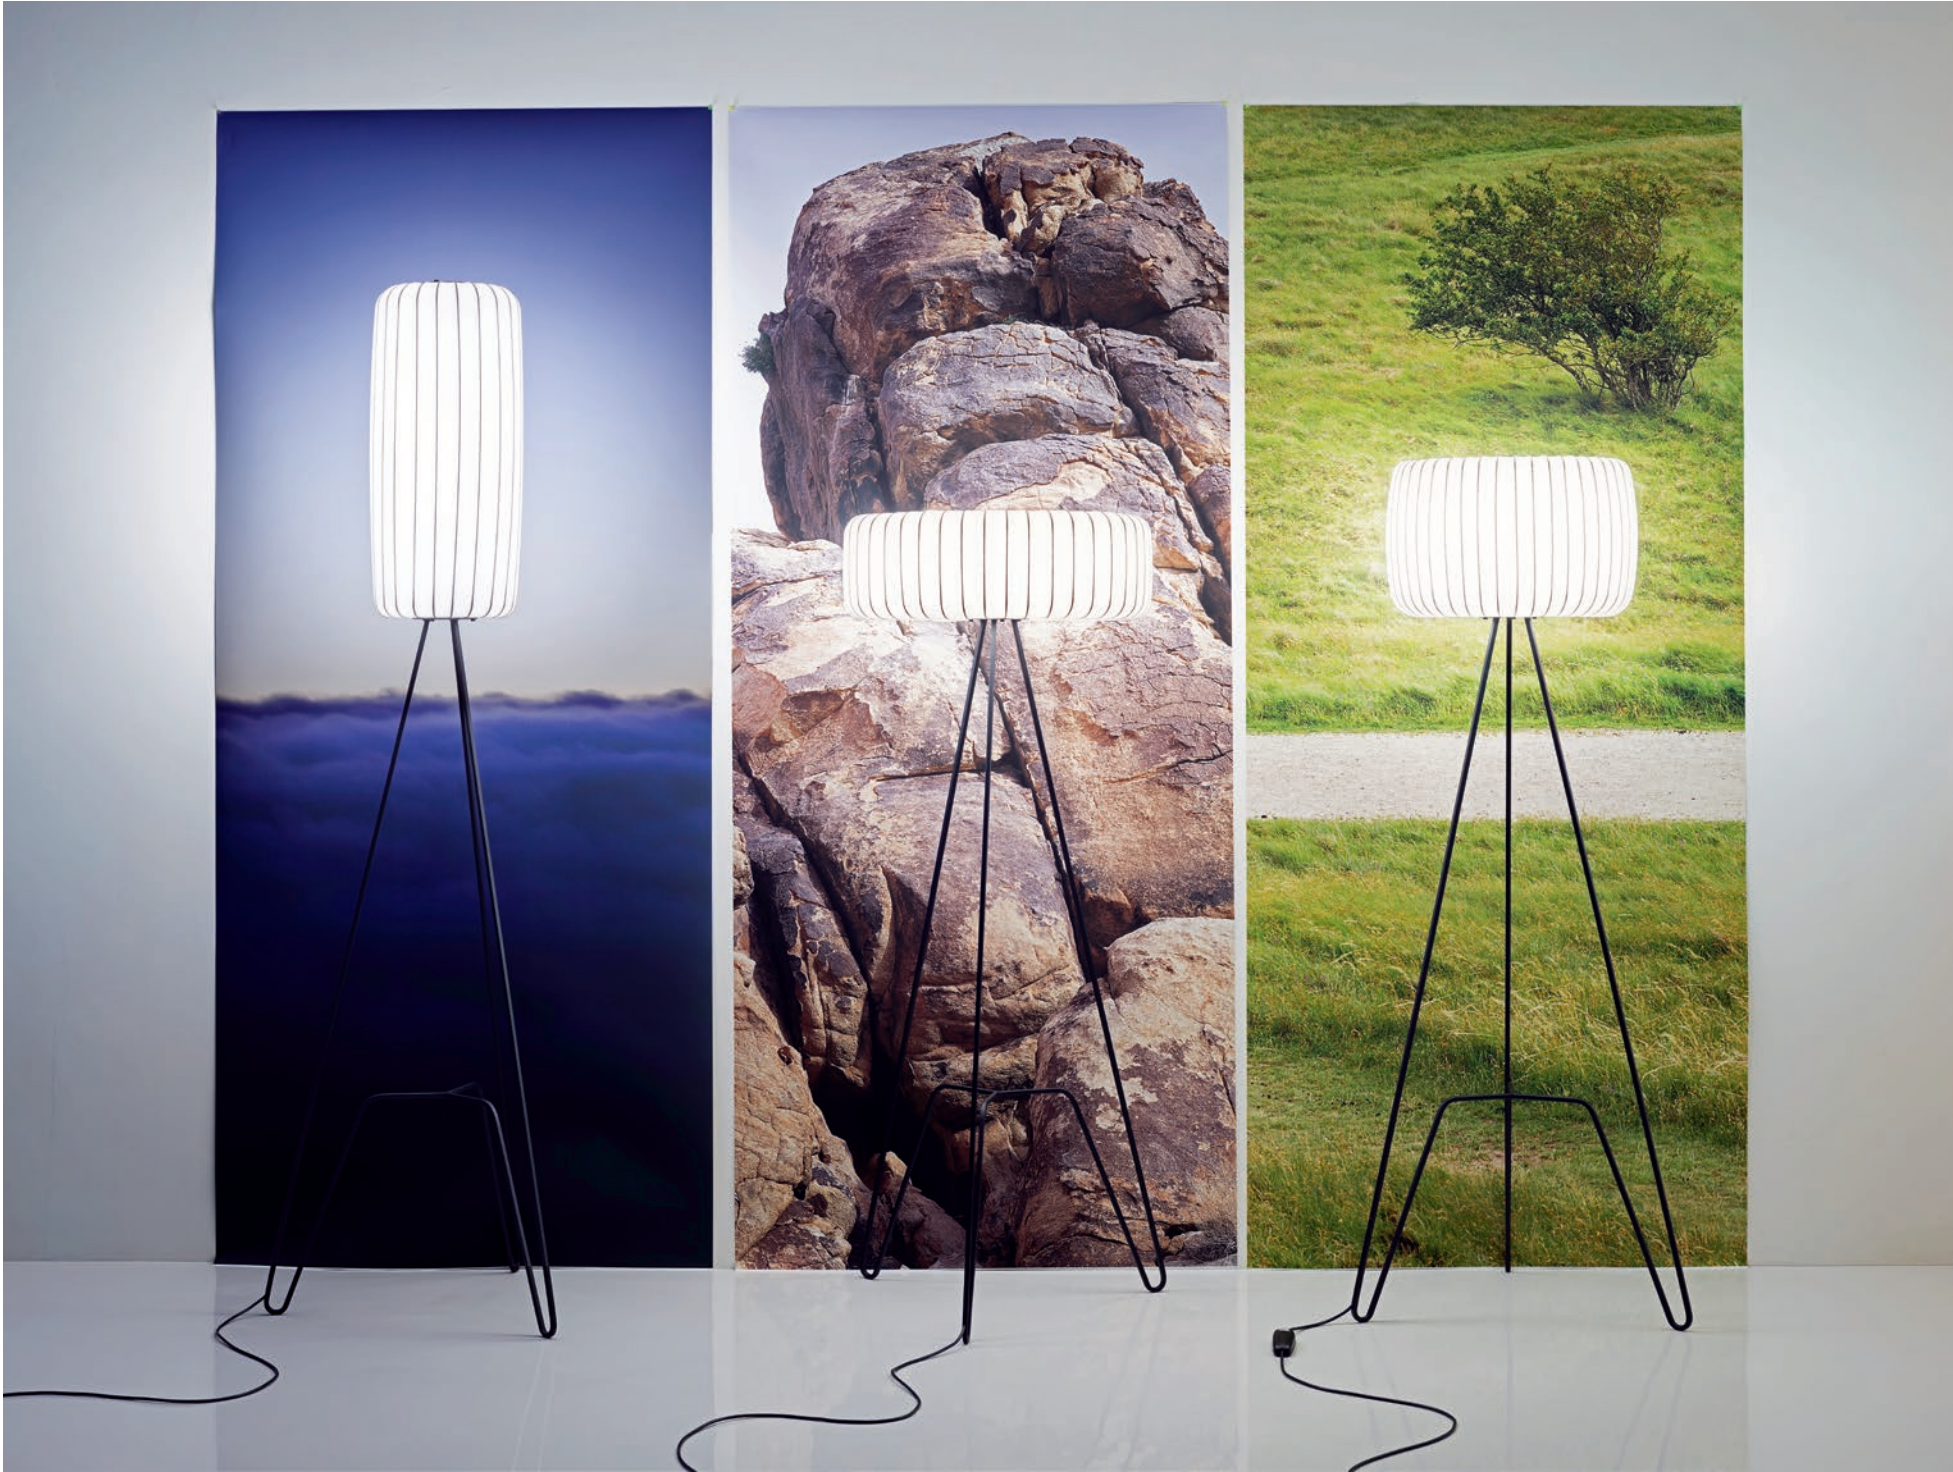

Sunsa Family

Flamboyant and confident, the Sunsa chandeliers act as natural center pieces in any large space. The number of shades, suspension length, and overall diameter are customisable and can be fitted for a specific space.

Stand By Family

An elegant range of disc-shaped mobiles, chandeliers, wall and ceiling fixtures that radiate light across large areas. The simple contemporary lighting collection is available in multiple sizes and colors, and members of the Stand By Family can be installed on their own or in collaboration with each other.

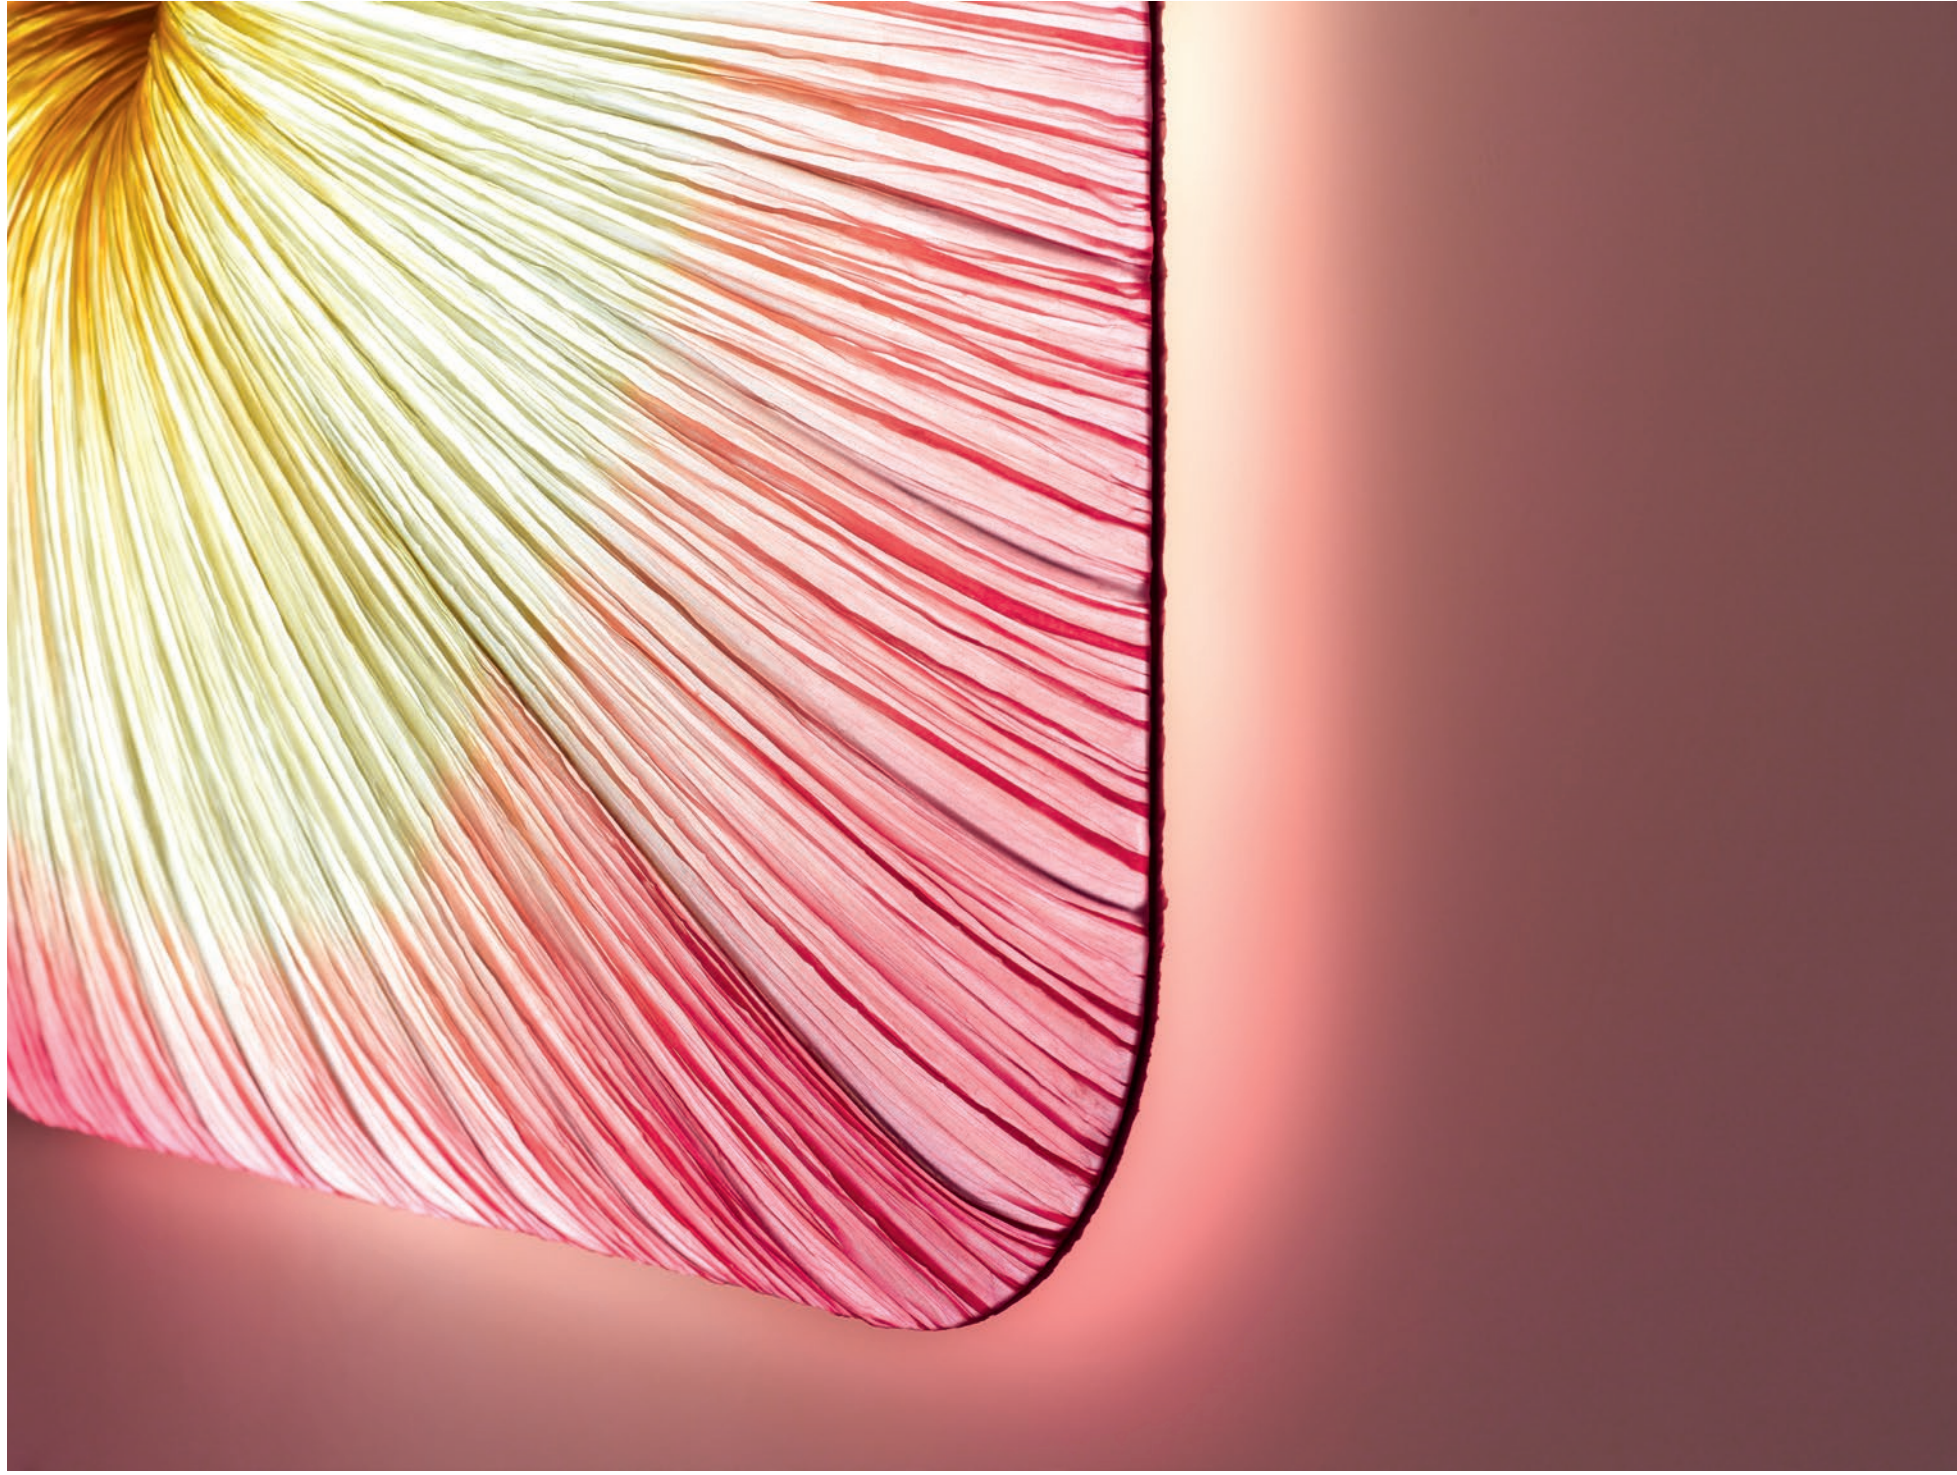

Nara Family

Taking its name from the ancient Japanese capital, which was built in a grid pattern, The Nara Family is a geometric lighting range. Its rounded square tiles combined with handcrafted silk, and comes in a range of sizes and functions, from pendant lights to wall and ceiling fixtures.

Mod Family

A versatile and extensive collection of geometric, modular wall and ceiling lighting fixtures, Mod family members can be used individually or hung together to make unique personal lighting patterns.

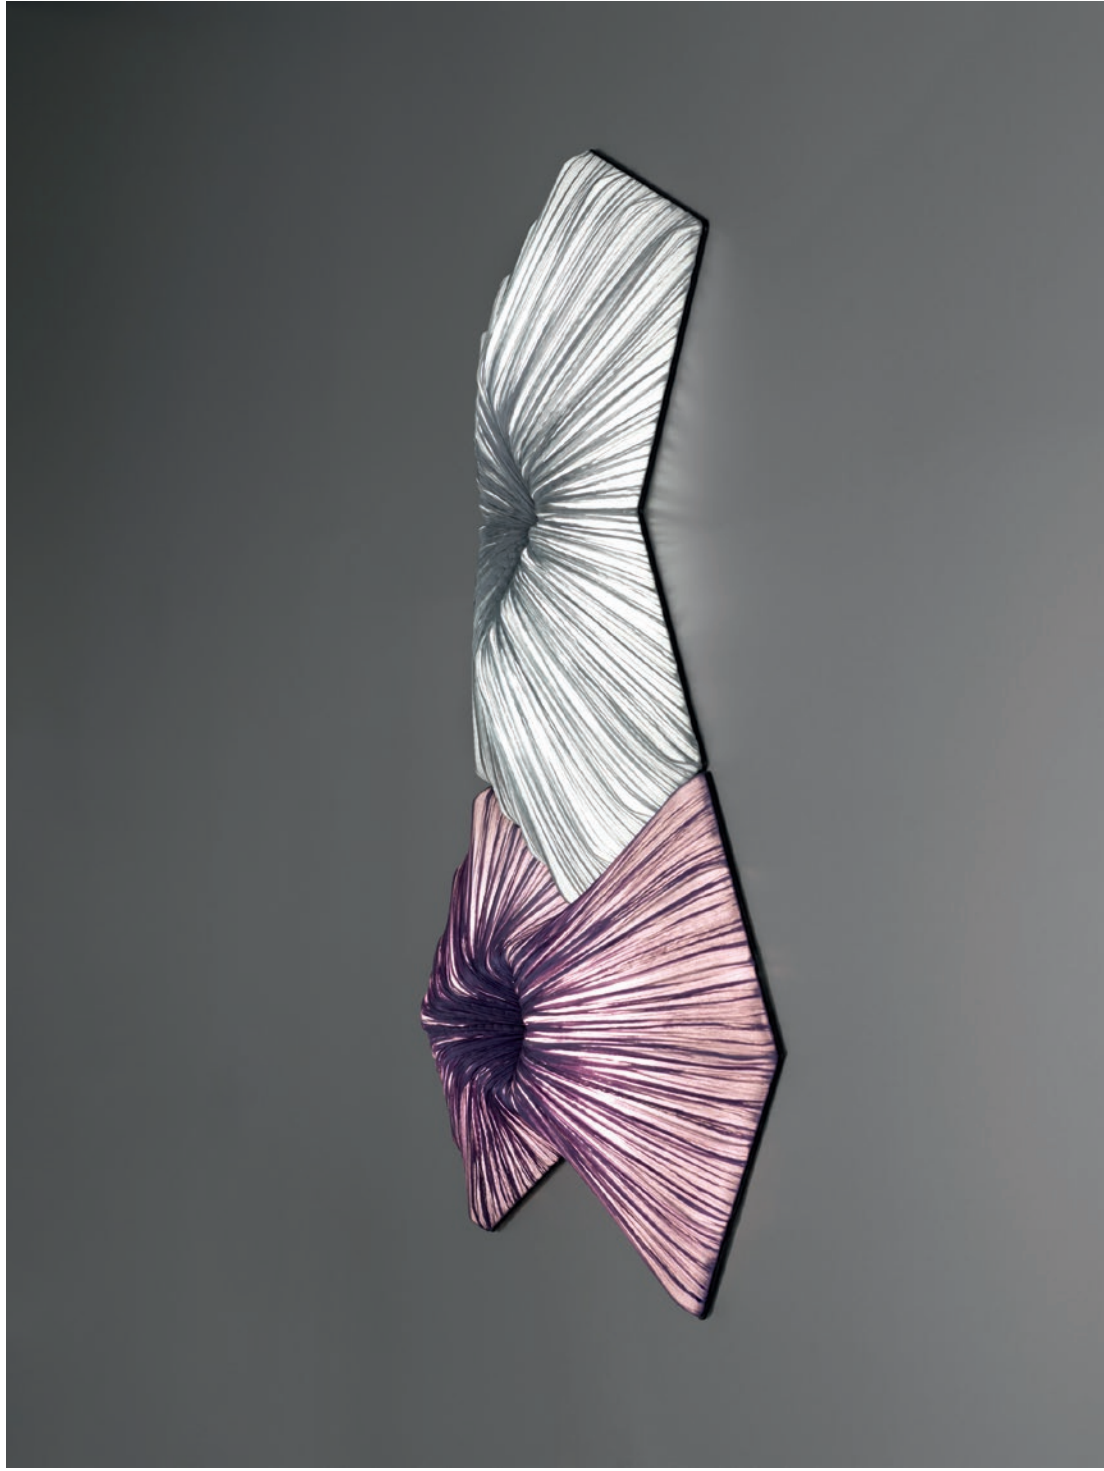

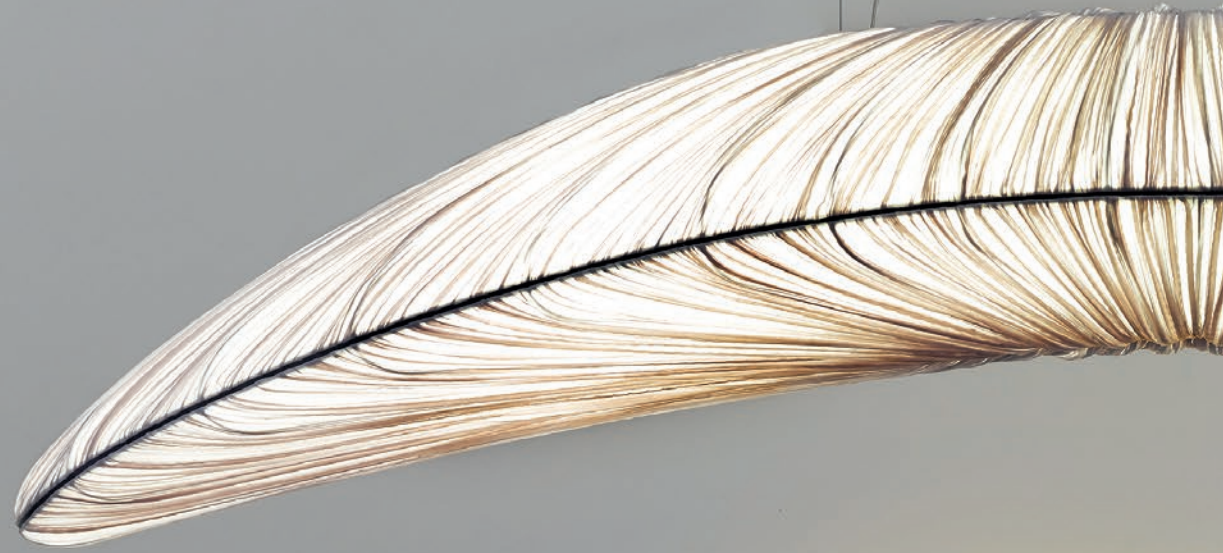

Orchestra Family

Organic and sculptural, this range of table lamps, pendant lights, and floor lamps takes inspiration from natural musical forms, as well as modern sculpture and architecture.

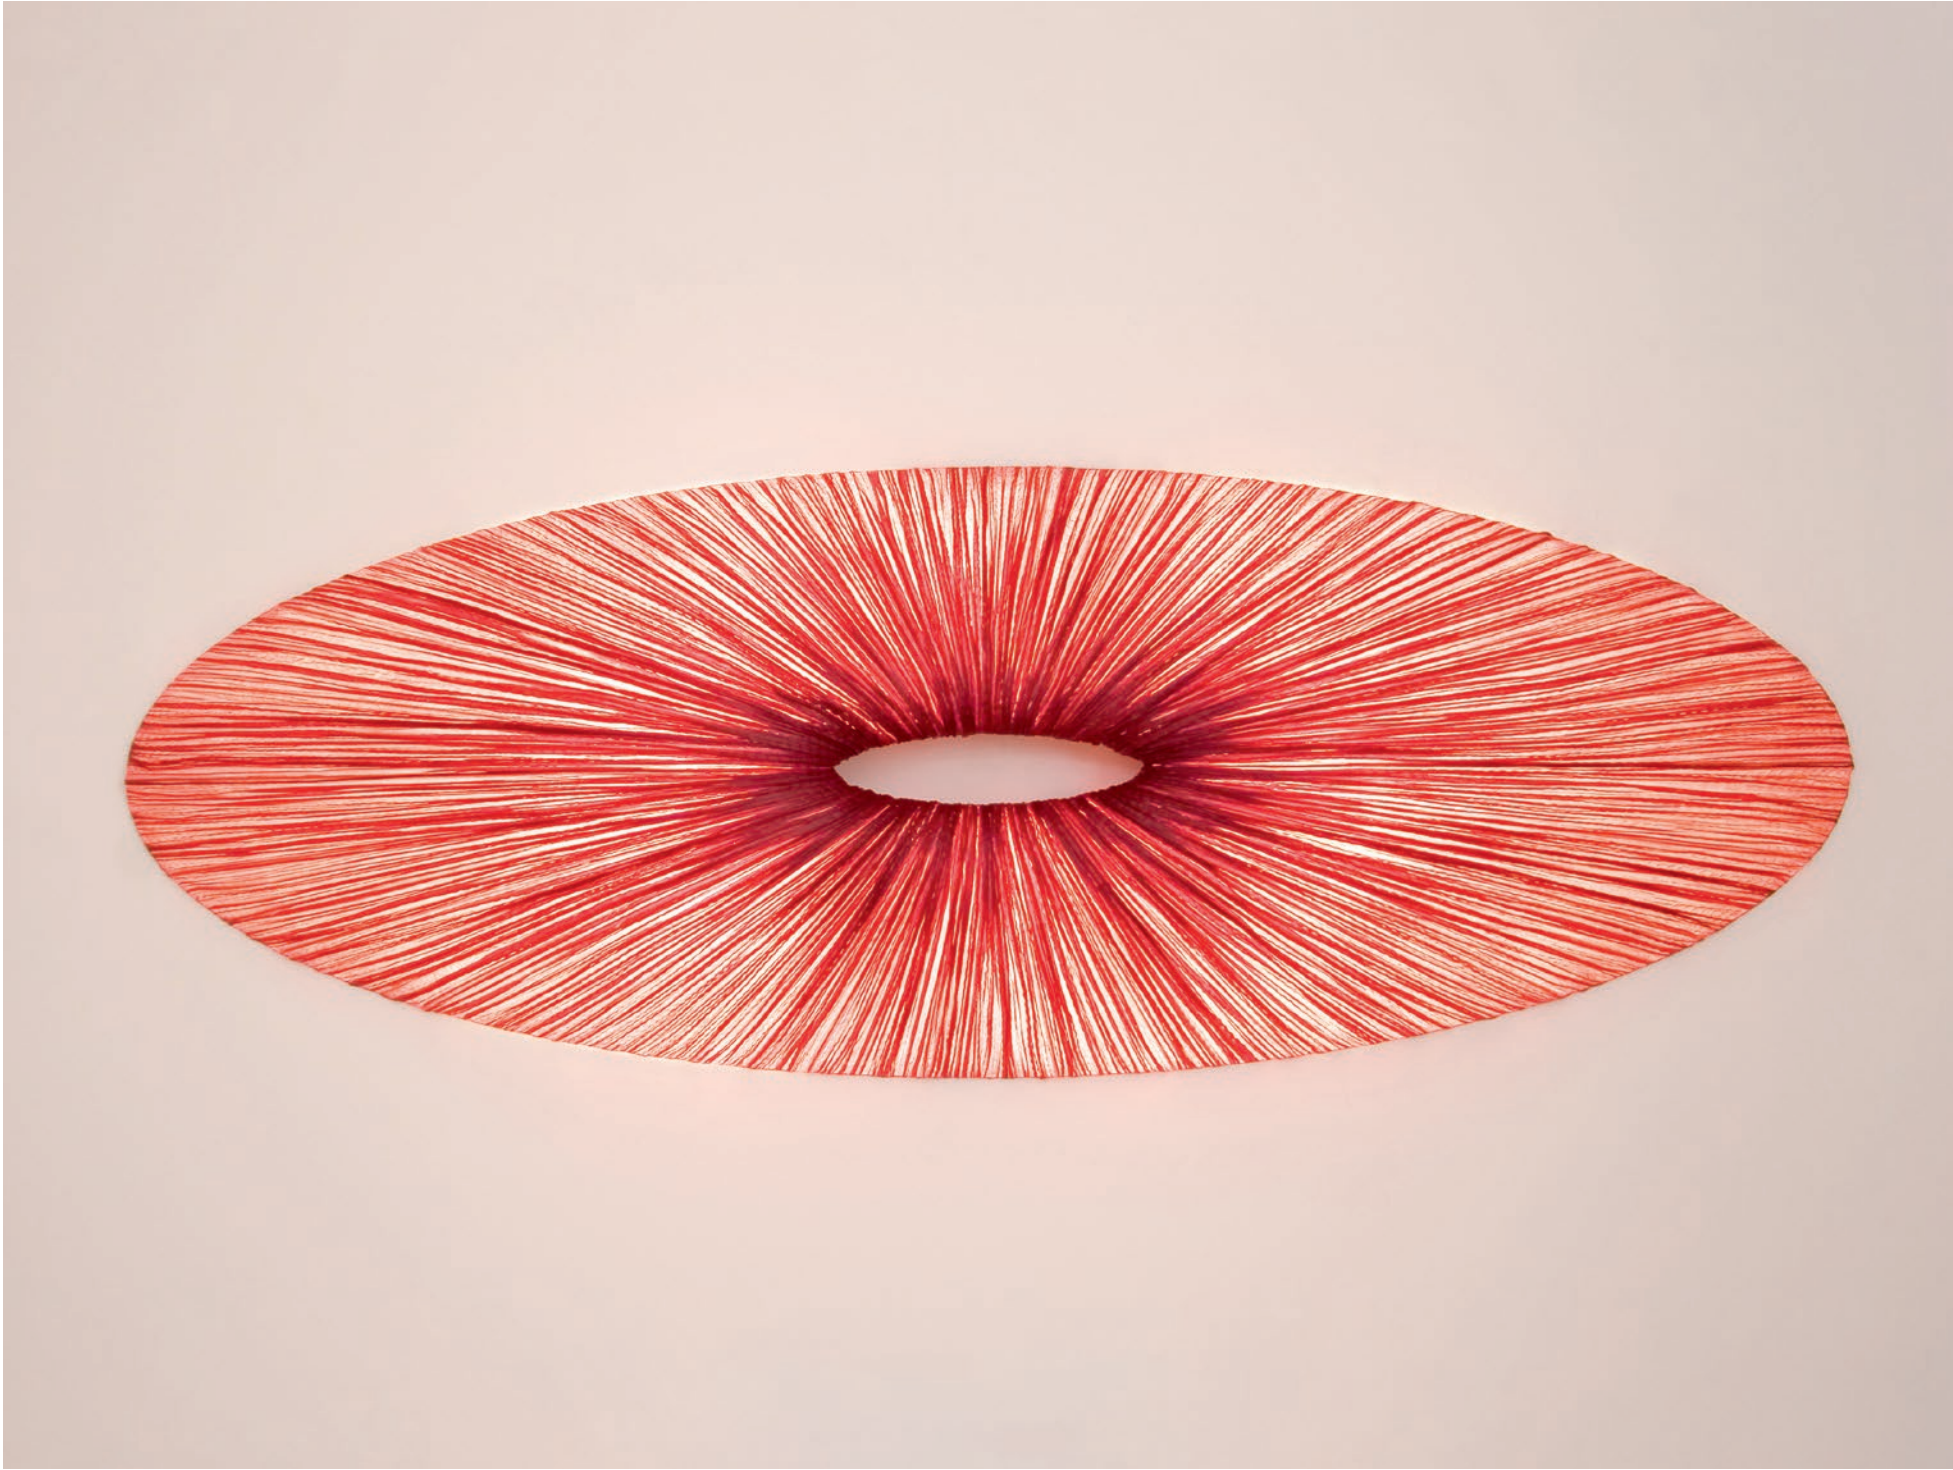

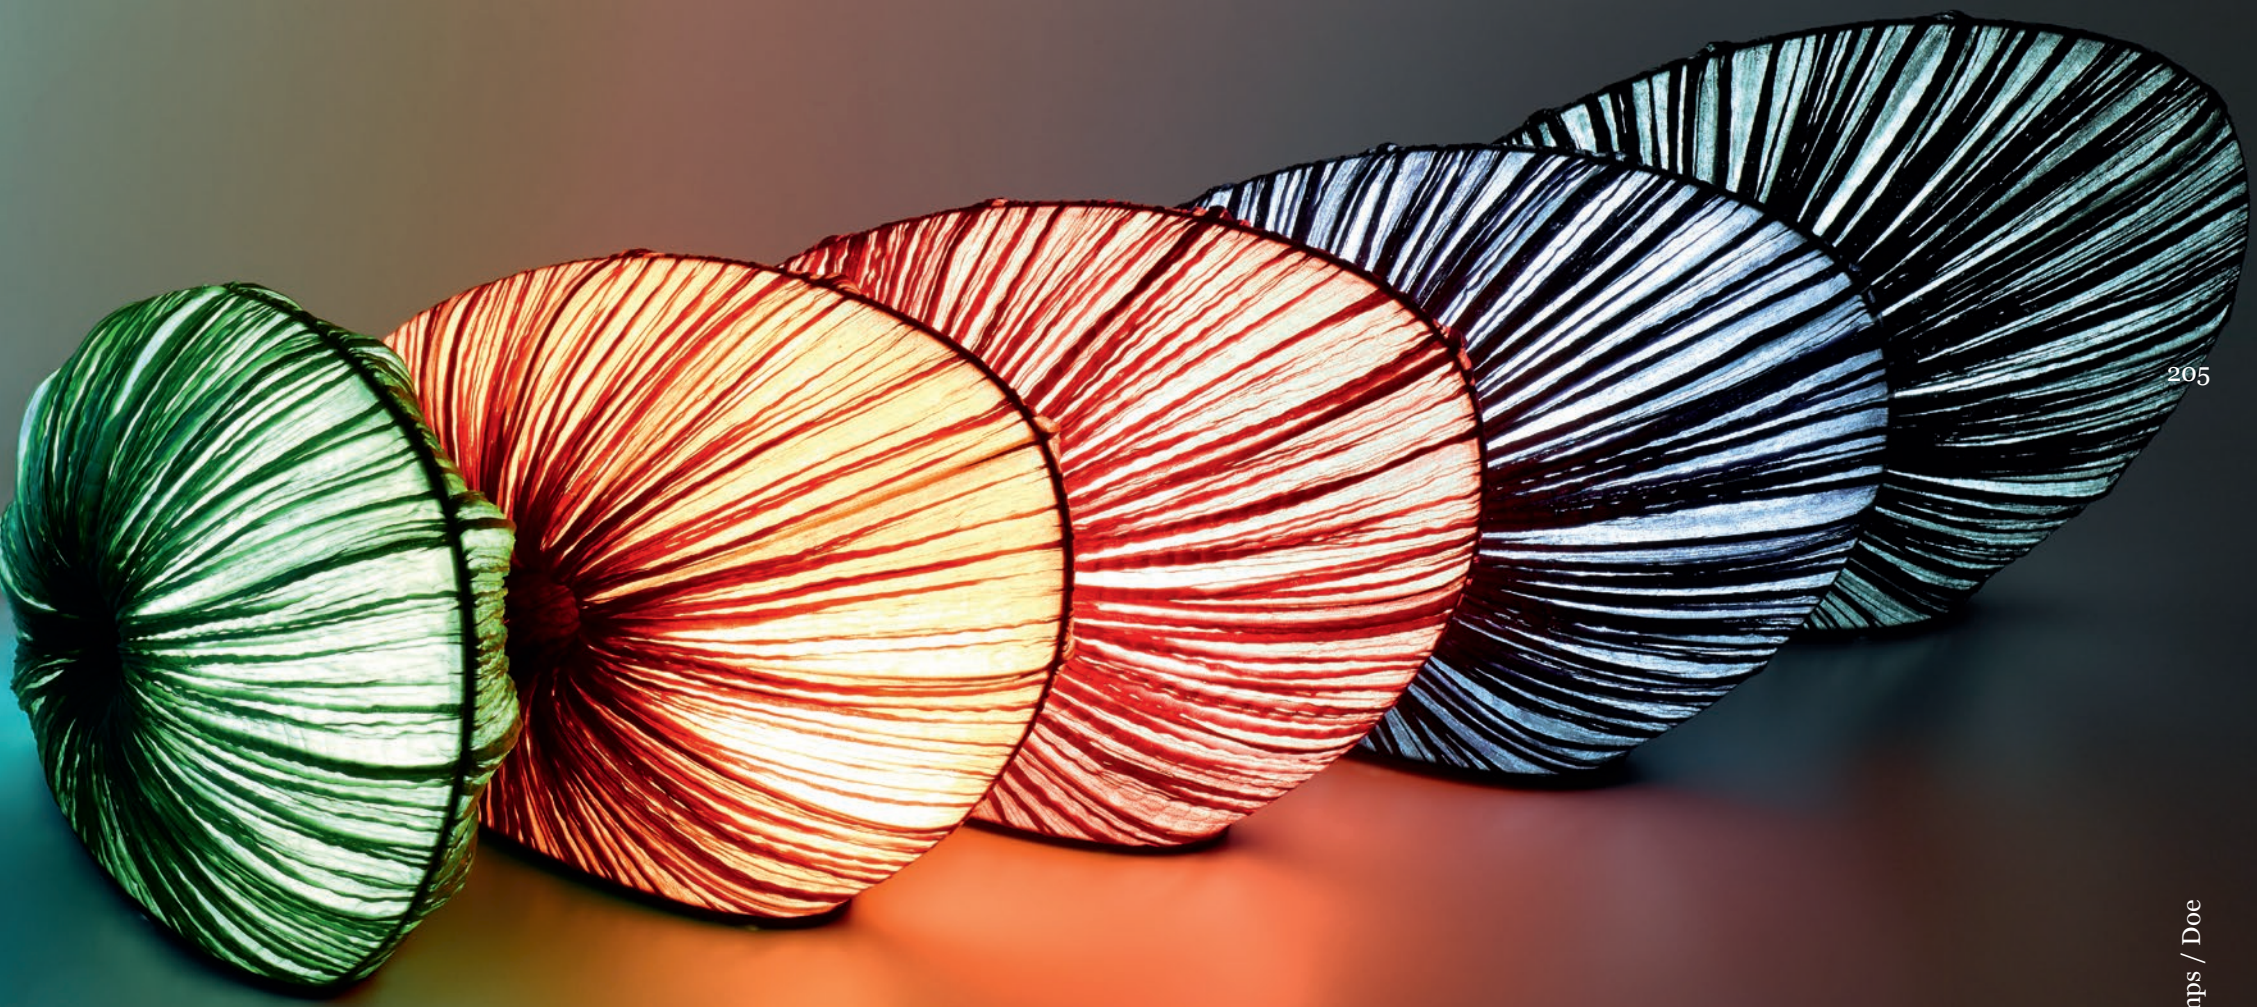

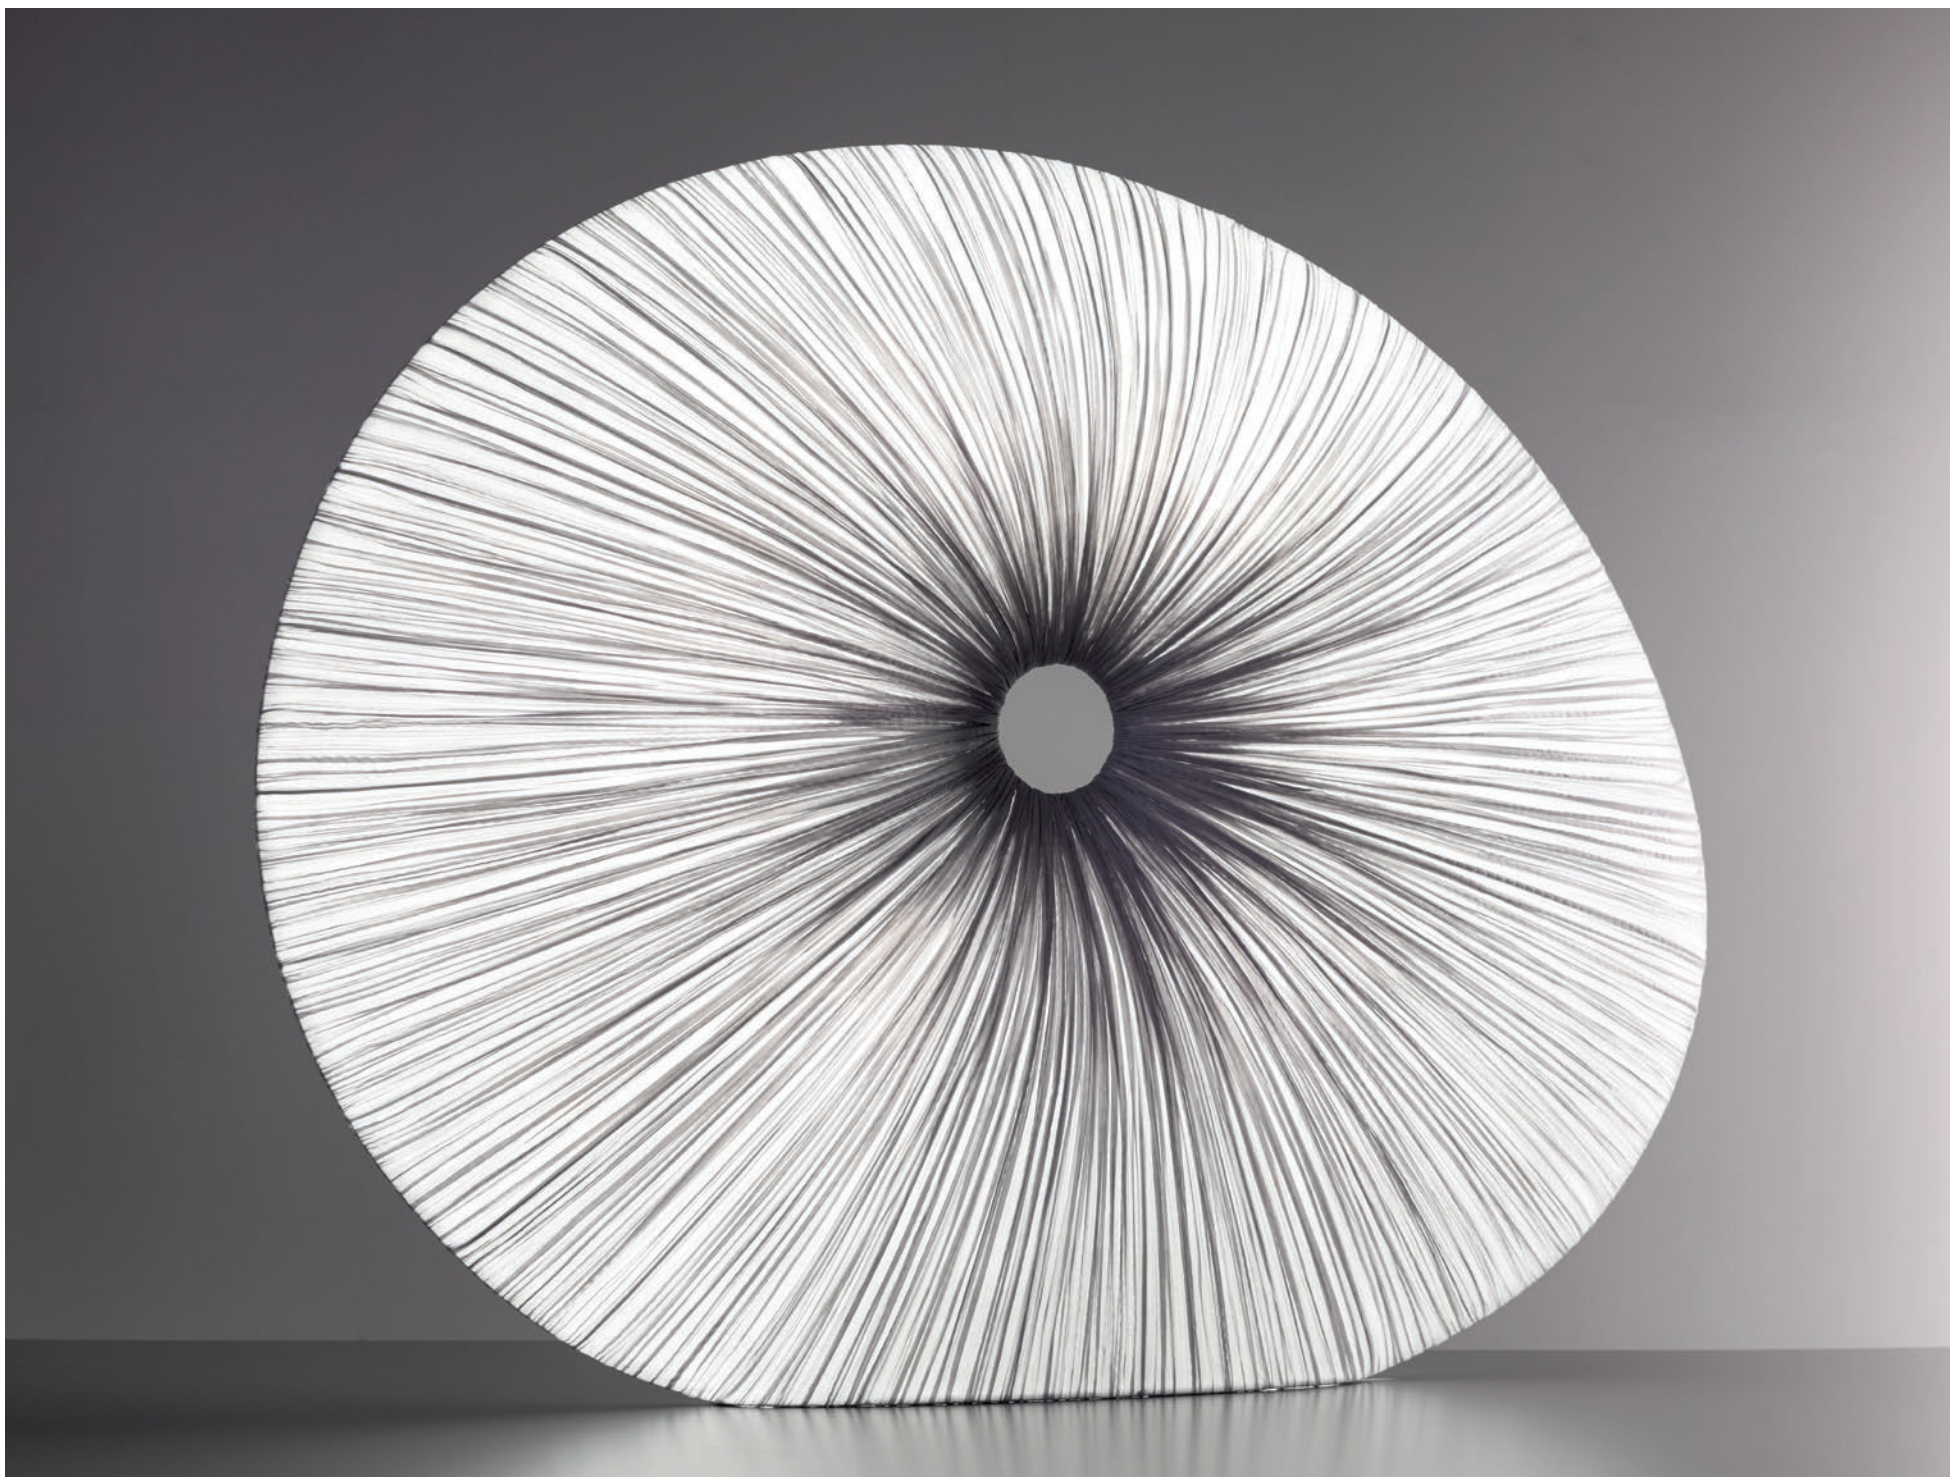

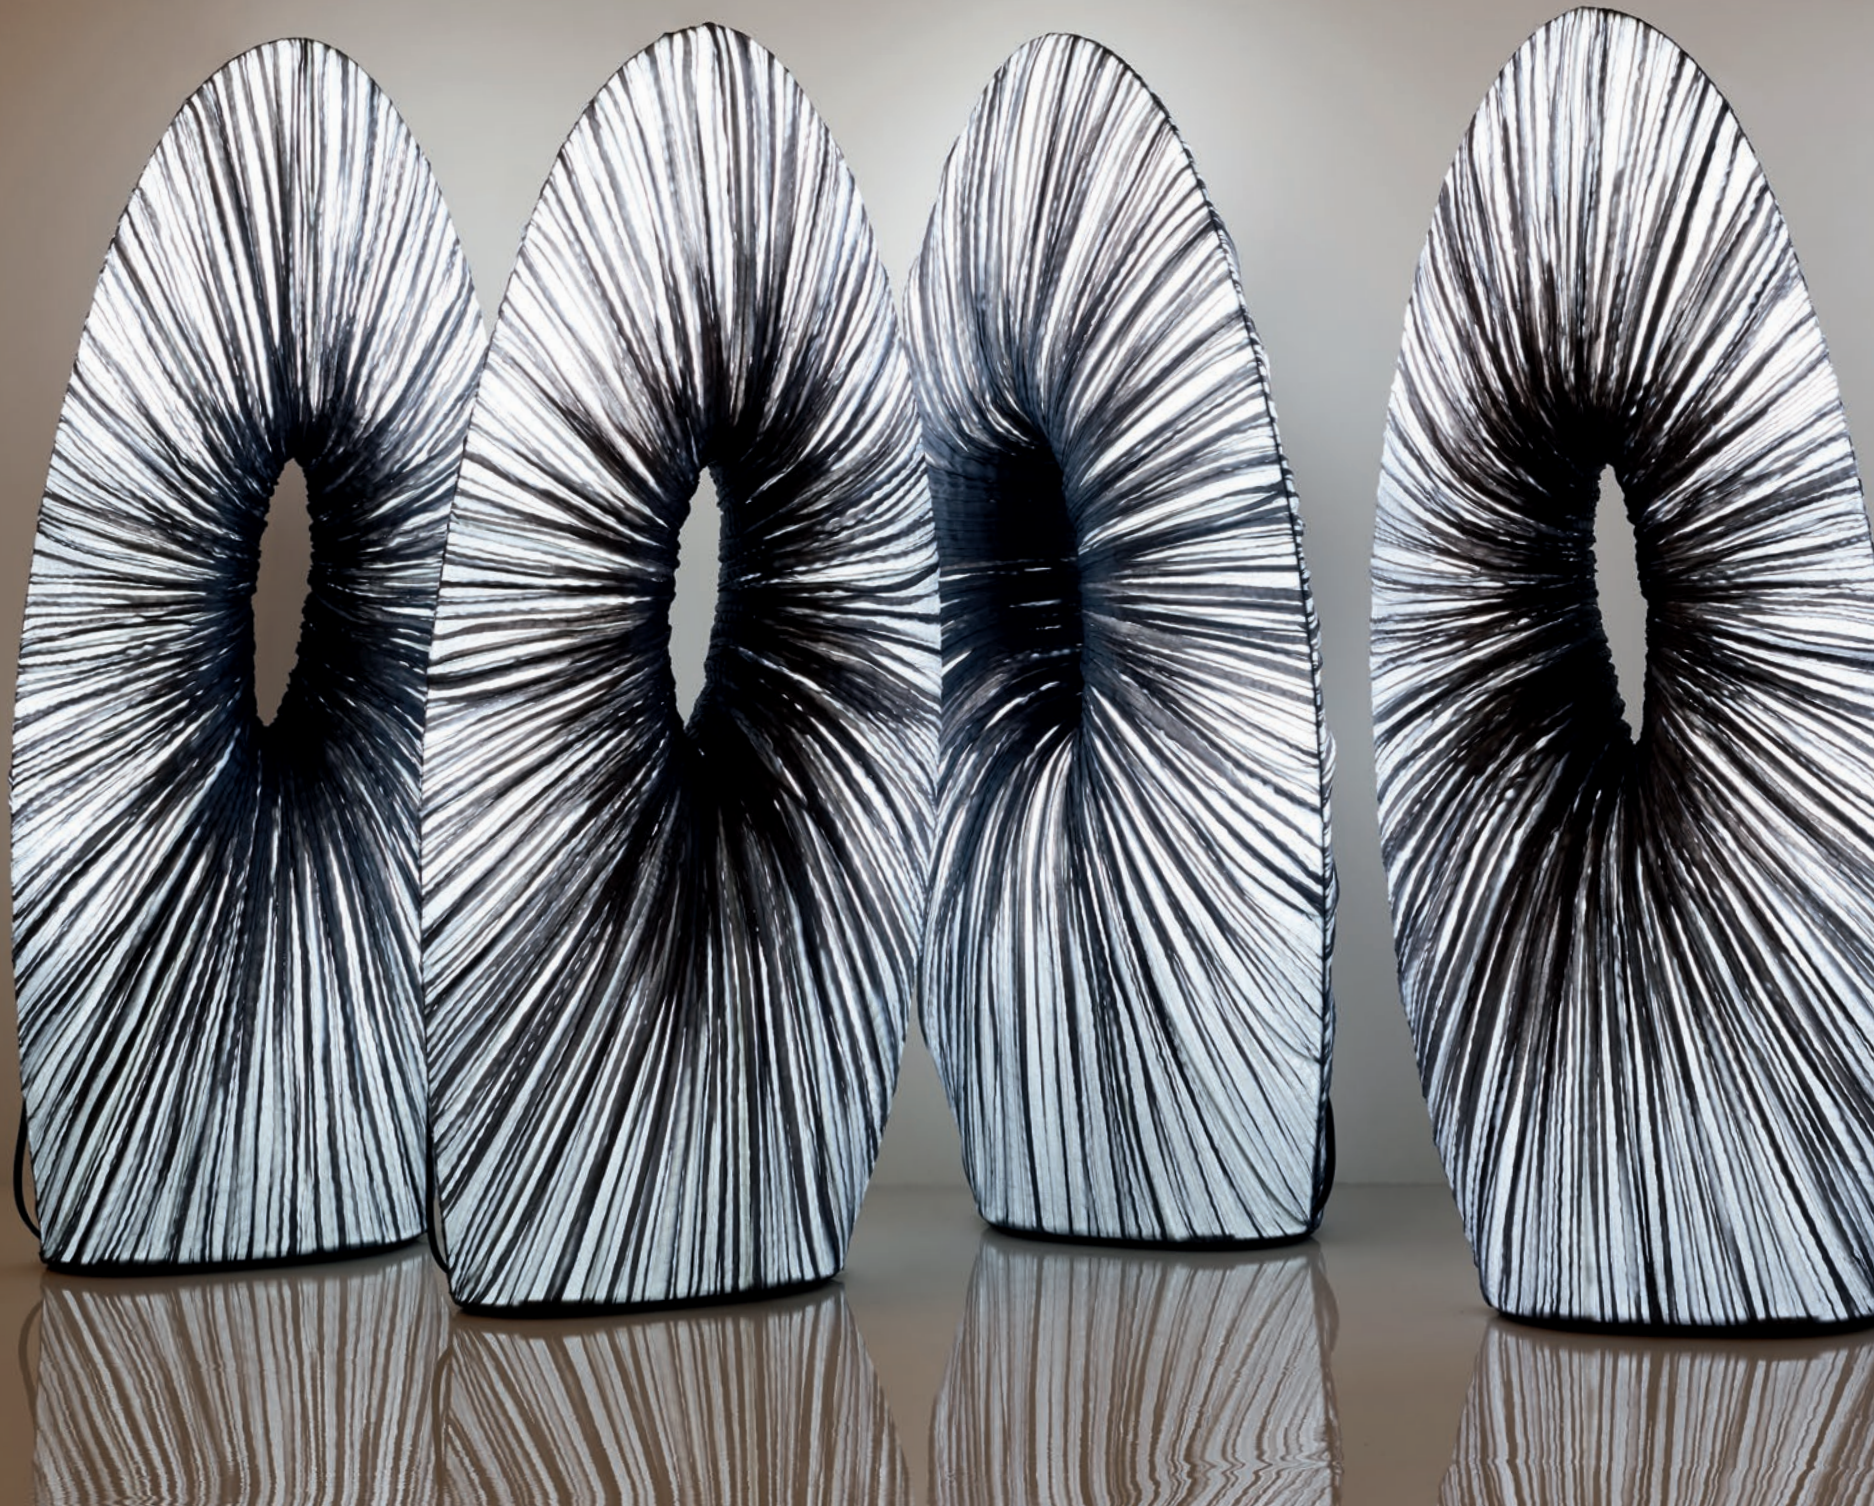

Palm Family

The Palm Family's orb-shaped forms and sinuous fixtures are drawn directly from nature. The highly stylized, curvilinear branches of the fixtures are made from hand-bent metal tubes wrapped in dark bronze organza fabric.

Furniture Family

Inspired by natural shapes, our sculptural furniture range is a tactile, hand-made, comfortable and organic addition to any space.

Live & Let Dye

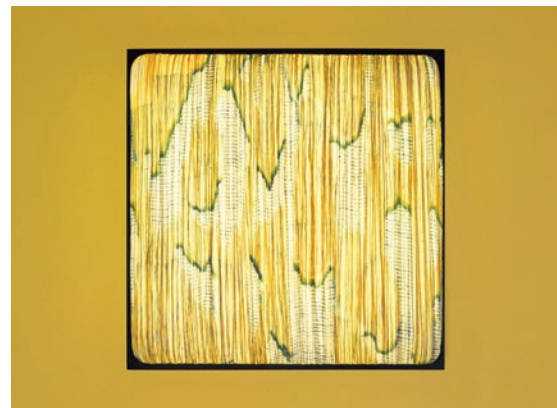

Scan this code for more detailed information about Live & Let Dye

Live and Let Dye – or “L&LD” for short – is the name we’ve given to the digital printing technology we’ve developed here at Aqua Creations for our handmade signature silk lampshades. Before pleating or any other processes occur, we take the raw silk rolls and print onto them using a large printer which uses ten non-fading dye colors.

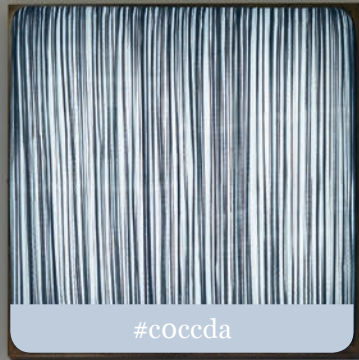

250

Printing onto such delicate silk is a challenge we’ve mastered: we can create special colors beyond our regular palette, as well as produce graduated printing, from the deepest shade of black to natural white silk. We can also print any pattern, in any color, as part of our bespoke design service. After the printing process is complete, we pleat the silk and apply it to our lighting fixtures to give them a unique lighting ambiance. We use HEX as the color codes information.

Aqua Creations is a life-long journey of travelling through light, art and technology.

We find fulfillment in designing, making and documenting organic, sculptural lighting and furniture pieces. Each of our objets d'art are made by hand with care, craftsmanship and diligence by our devoted team.

The two parts of this book reflect our two most prominent virtues—our freedom of creativity and our love for fine detail—both of which make our lights and furniture the masterpieces they are.

May this journey never end.

— Albi Serfaty, founder of Aqua Creations
