D E N M A R K

LOOM Design - Modern Lights in a Classic Scandinavian Style.

If you are a lighting enthusiast with an eye for high-quality designer lights at great prices, or you just want elegant lights in an attractive Scandinavian style, then LOOM Design is guaranteed to have what you are looking for.

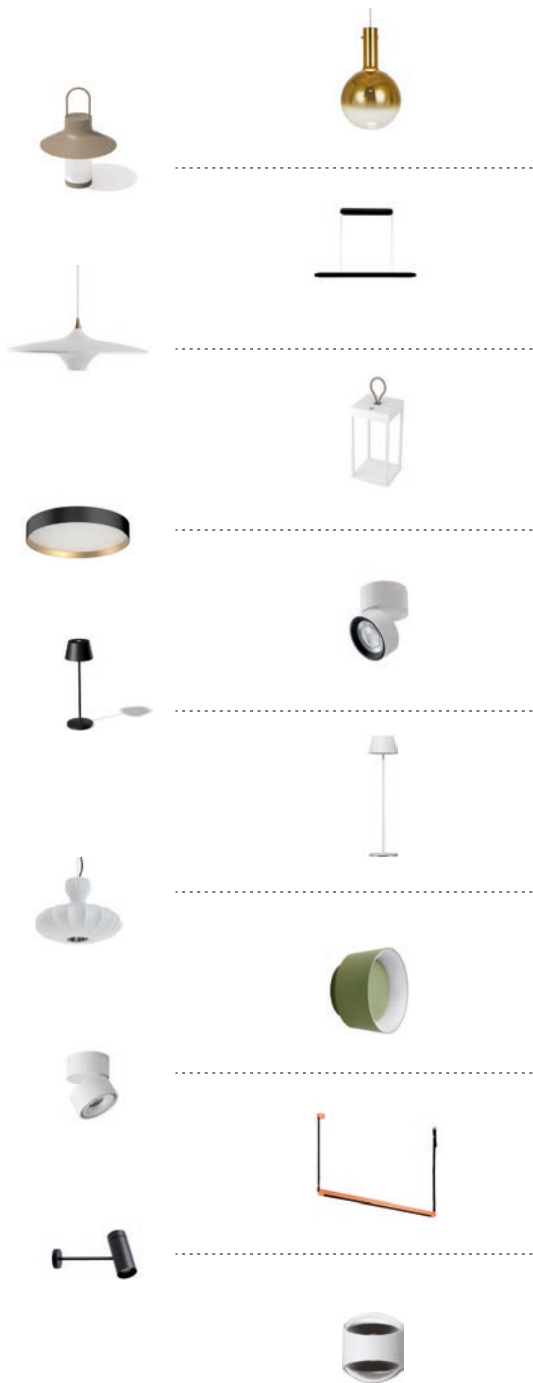

LOOM Design is a Danish lighting company that operates out of Aarhus in Denmark. Loom Design is owned and run by the lighting company and wholesaler Lampefeber A/S, which has imported and sold designer lamps to private and corporate customers throughout Scandinavia for more than 30 years.

At LOOM Design, design, usability, functionality, and a high standard of quality are absolutely non-negotiable. The company particularly focuses on introducing modern lights that have a touch of the popular Scandinavian style - which can clearly be seen in the range of attractive, cordless and outdoor lights. However, in addition to the modern and simple Scandinavia-inspired designs, LOOM Design also aims to present lights that have a long lifespan and provide many years of happiness for their customers.

The Shadow battery-operated table lamp has a modern design and a stylish, matt-white look. It features a solid handle, making the light easy to carry or hang, and touch functionality for turning it on and off. In addition, the built-in dimmer can be adjusted to several intervals and with memory function for brightness and colour temperature, making it easy to create the perfect light for any setting. The lamp can light up for more than 10 hours at full power before it needs to be charged. Charger not incl.

The lamp has a IP65 rating which make it ideal for both outdoor use and indoor use.

LUCERNA

Rechargeable lantern

The Lucerna Led Battery lantern lamp impresses with its modern design and energy-saving, via battery-powered lighting technology.

Formally reminiscent of a classic lantern.

The integrated Li-ion battery provides sufficient energy for more than 9 hours of operation with the device on at 100% light intensity. The touch ON/OFF switch with dimmer, as well as the USB socket is located below the luminaire lid.

With a completely empty battery, it takes about 6 hours until the charge state has reached 100% again. Silica gel handle. Painting with polyester powder coating.

Product is with no visible screws and IP65 protection class.
